WASHINGTON, Oct. 9, 1869.

INTERESTING INDIAN INTELLIGENCE.

Gov. Burbank, of Dakota, ex-officio Superintendent of Indian Affairs for that territory, has forwarded to the bureau copies of letters from First Lieut. Woodson, of the Commissary Department, and Capt. D. C. Poole, Indian agent at White Stone Agency, in that territory, with reference to the present and anticipated troubles among the Indians, and asking that troops be stationed there. Lieut. Woodson reports that the subsistence stores at the agency are in a great state of insecurity. The recent disturbances among the Indians occasioned by the introduction of whisky has resulted in great destruction of public property. A disposition is manifested on their part to kill the beef cattle sent there for their use. Frequent instances have occurred already. A request was made for a sufficient number of troops to insure the necessary safety to the public property, and the lives of the employes. Captain Poole reports that the Oaallallahs and Brutes, under his charge, are smarting under their defeat by Gen. Carr and his Pawnee scouts in July last, and are being constantly incited by less friendly Indians, with whom they are in daily communication, to revenge the death of their fallen comrades. They have organized a war party against the Pawnees, and have visited near their reservation and taken some scalps. The Pawnees, in return, visited the Whetstone agency and stole a number of horses.

WILL OF THE LATE GEN. RAWLINS.

The will of the late General Rawlins was admitted to probate to-day. He first bequeathed to his wife and children his house and lot situated at the Southwest corner of 12th and M. sts, as equal heirs, as also his lands in Cheyenne and Golden City, Wyoming Territory. To his son, James Brandin Rawlins, he leaves his library. To his father and mother, his property known as the Rawlins' homestead, in the town of Guilford, Joe. Davis county, Ill. On their death the property to be devided into eight portions, five to go to his brother Lemuel, who is to satisfy his sisters, Mary and Laura, and brother Robert, and to keep the place as a whole.

From Mormondom—Utah Wants to Come Into the Sisterhood of States.

[By Telegraph to the Pittsburgh Gazette.]

ST. LOUIS, October 9.—A Salt Lake City telegram dated the 8th, says: The Territorial Fair was held here during the past three days. There was a fine display of home manufactures; among them were fine wagons and carriages, and a large assortment of cotton and woolen goods. There were few cereals, as the grasshoppers destroyed large portions this season.

The Semi-Annual Mormon Conference opened on the 6th inst, and still remains in session. A great number of people from all parts of the territory are here. A meeting of the citizens was held here yesterday afternoon in the new tabernacle. The crowd was enthusiastic, numbering over twelve thousand. The Hon. L. A. Smith, Brigham Young's counsel, was elected chairman. A committee was appointed to draft a memorial to Congress, asking the admission of Utah as a State. The memorial presents the similar petitions sent to Congress in 1860 and 1862. Although properly presented, they were never brought to a vote. The memorial claims a precedence of the other territories admitted into the Union with far less order of government and general resources far self-manitenance. Territorial government, at the best, is oppressive—a relic of the old colonial form our fathers threw off because of its injustice, exaction and tyranny, particularly the practice of Government appointing officers from distant States who are unacquainted with the necessities of the people. The population of Utah is now 150,000, and they are anxious for self-government.

Western rates were again raised to the annexed rates: St. Louis, $1; Louisville, 90c; Indianapolis, 72c; Cincinnati, 70c; Chicago, 61c. Another advance is expected in a week. The present one covers the first, second and third claases only.

From the Pacific Coast.

[By Telegraph to the Pittsburgh Gazette.]

SAN FRANCISCO, October 8.—Judge Sawyer, of the District Court, has decided that Chinese testimony is admissable against a white man under the Fourteenth Amendment of the Federal Constitution.

The fire last night on Sacramento street, below Front, destroyed $80,000 worth of property.

A large excursion party, including Governor Ward, of New Jersey, Colonel Ordway, of Washington City, and Hon. Charles Knapp, of New York, have arrived.

The *Daily Herald* has suspended publication.

Important mineral discoveries have been made in the State of Nevada fifteen miles South of Carlin station, on the Central Pacific Railroad.

Arizona advices state that Governor Safford offers General Thomas three hundred volunteers—old Indian fighters—for a six months' campaign, the Government only to furnish rations and ammunition.

There was a riot at Prescot, September 20th, in which three soldiers were killed and one wounded.

Major McComlier, of the U. S. Army, was accidentally killed at Tuction recently.

The French ship Malaber was seized at Mendocino and brought to this port for violation of the revenue laws.

A meeting of leading citizens last night organized a California Emigrant Union to promote European immigration to this coast.

The coner stone of the State Uuniversity will be laid the first of November.

—Lewiston, Bangor and Eastport, Me., were visited by a rain storm on Saturday night, which done an immense amount of damage to property on land and water, twenty-seven vessels being ashore at Rum neys' Bay alone.

NATIONAL FINANCES.

Secretary Boutwell in Philadelphia—He Delivers a Speech on the Finances of the Nation—Public Debt, Principal and Interest, to be Paid According to the Terms of the Contract—He Favors a Reduction of Taxation Year by Year—Unanswerable Facts and Figures.

[By Telegraph to the Pittsburgh Gazette.]

PHILADELPHIA, October 9.—Secretary Boutwell delivered an address to a large audience this evening in favor of the Republican State ticket, most of which was devoted to the financial question. He stated, as the entire policy of the Administration in regard to the public debt, that it is to be paid, principal and interest, according to the terms of the contract, and in coin, or that which men will receive as the equivalent to coin. He claimed that if none of the public debt had been paid since 1865, the funded debt of the country would not bear less than $3,200,000 in addition to the $356,000,000 notes in circulation. If in these four years, exhausted as we have been by war, we have been able to pay twenty-five or thirty-three per cent of the public debt, shall we hesitate as to our course for the next few? years If we were to pay $100,000,00 a year, which we can do, if the present system of taxation be permitted to remain, the public debt will be extinguished in less than fourteen years. If we pay $50,000,000 a year, which we can do at a decreased taxation, the interest bearing public debt will be extinguished in less than twenty-two years; and if we pay but $26,000,000 a year, and reduce taxation, as we may, to a very large degree, the interest bearing debt will be extinguished in thirty years. The astonishment is that under the circumstances there should be any question among any class of people as to what the course of the country should be.

But, gentlemen, we are now paying on a larger part of this debt six per cent. interest. The events of the last six or seven months demonstrating the ability of the people of this country to pay this debt has rendered it not only probable, but I consider it is certain, unless there shall be some disturbance of the peace of the world—unless there shall be some calamity national in its character—I consider it certain we can completely refund so much of the debt as we desire to refund at a rate of interest not exceeding 4½ per cent, (applause,) thus saving to the country and to the people who pay taxes from $18,000,000 to $25,000,000 a year. You have paid $56,000,000 of the public debt since the 1st of March last. Shall we, in the presence of that fact, shrink from what is before us? To be sure there is taxation; but it is not grievous taxation, and more than that, it can gradually, year by year, be diminished. The burdens, whether heavy or light, can be gradually removed from the people.

I thought it might not be uninteresting, although the facts are well known, how far the revenues and proceeds of taxes bear heavily upon the people. During the last year, from distilled spirits and manufacture and traffic in distilled spirits, wine and every kind of liquors, was derived a revenue of $44,000,000; from tobacco, manufactured as well sa in the various forms, $23,000,000 more. Here are nearly $70,000,000, which, I suppose, in the judgment of most of us, is not unnecessarily heavy. Then about $6,000,006 from taxes on fermented liquors. We get $6,000,000 from the transportation of merchandise through the country, which should be removed as soon as the condition of the Treasury will permit. There are about $6,000,000 more from the sale of merchandise, and $8,000,000 from income tax: $31,000,000 from stamps, and $15,000,000 from other and smaller items sufficent to make an aggregate of $150,000,000. This system of taxation can be changed so as to relieve the burden of taxation from the mass of the people. A greater amount of the internal revenue is derived from the luxuries of life, or from taxes on people who are able to pay, and the burdens upon the laboring people of the country is, after all, very small.

But I must say that no system of taxation is desired that does not look to a larger taxation upon the luxuries or accumulated property, thus relieving the labor and ordinary business of life to as large a degree as possible.

Mr. Boutwell stated the reason which controlled the Administration in the application of the surplus fund. Congress had prohibited the diminution of the amount of greenbacks, and neither them nor the fifty millions of 3 per cents could be redeemed without a departure from the law of congress, by which the Secretary was required to allow the volume of currency to remain as it was when he entered office. Therefore there remains only the course which has been pursued, to issue six per cent bonds at the market price.

Mr. Boutwell concluded by an appeal to workingmen to see that the means of education are furnished to the children; to inculcate justice, and rule the land under the principales of virture guided by intelligence.

National Commercial Convention.

[By Telegraph to the Pittsburgh Gazette.]

LOUISVILLE, October 10.—There will be in attendance at the National Commercial Convention, which meets here on the 12th inst., delegates from all parts of the Union. The object of the assembly is to consult as to the best means of developing the commercial and manufacturing interests of the country, regardless of the interests of any particular section. The delegates have been chosen irrespective of any past or present political creed or preference. It is impessible to tell what matters will be under consideration, but there will be in the meeting some of the leading intellects of the nation, wisdom will dictate its action, while all sectional feeling and prejudice will be discountenanced

Destructive Fire.

[By Telegraph to the Pittsburgh Gazette.]

ROCHESTER, October 9.—This evening two large buildings in the rear of the University of Rochester, containing the laboratory, workshops and private mineralogical, zoological and other cabinets of Prof, Henry Ward, and his plaster casts and moulds, was destroyed by fire. Most, if not all, of the Zoological cabinet was saved, comparatively uninjured. The mineralogical cabinet was burned. The value of the whole is estimated at $60,000; insurance between $35,000 and $40,000. The large cabinets sold by the Professor to the University are safe in the University.

NEWS BY CABLE.

Serious Riot in France—Ten Rioters Killed and Many Wounded—Pere Hyacinthe Coming to the United States—London "Times" on French Affairs—Fenian Meetings.

[By Telegraph to the Pittsburgh Gazette.]

FRANCE.

LONDON, October 9.—The *Times* to-day has an editorial on the state of affairs in France. The writer says: The self-restraint and forbearance of M. Keratry and his colleagues, at this juncture, is an evidence of the fitness of France to control her own destinies, and we have no doubt they will reap the benefit of their moderation. Under the old empire, immense fields were open to those who would work much and risk little. There was always a chance for good men and true to stand their ground firmly, though temperately. Had it been otherwise, we should not have been so far as we have got, and should scarcely have heard the July message. What the opposition wanted was union, method and patience.

PARIS, October 9.—Father Hyacinthe has gone to the United States, where he will remain two months or so.

The official journal states that a formidable riot broke out among the miners employed by the Orleans and Paris Railway in the Department of Avignon, on Thursday last. The rioters attempted to drown the chief engineers but were frustrated by the efforts of the Prefect and the troops. The Vice Prefect and several other persons were wounded in the melee. During the night of the seventh, the miners fired the general store house, and other buildings of the Company in the neighborhood, and by the next morning the riot had assumed alarming proportions. On the morning of the 8th the miners in large force attacked the forges of the Company, but the military, which had meanwhile arrived, charged upon them; and at the same time used their firearms. Ten rioters were killed outright and many others wounded. The mob then dispersed and measures were taken to guard against any new outbreak.

SPAIN.

MADRID, October 9.—Nineteen hundred insurgents to-day surrendered to Gen. Baldrick The General refuses to pardon those who have committed assassination.

Intelligence from Granada is to the effect that the volunteers in that section refused to disarm, and have escaped to the open country.

A body of volunteers in Saragosa fired on the troops stationed there, and a sharp fight ensued. The disturbance was finally quelled, but not until much blood had been shed.

The insurgents in the neighborhood of Valls placed obstructions on the track of the Andalusian railroad which caused a train of cars, filled with troops, to run off the track. Four of the troops were killed and many wounded.

GREAT BRITAIN.

LONDON, October 10.—The funeral of Martin, the Fenian, who died at King's College Hospital, in this city, on the 5th, took place to-day and was attended by six thousand people. The father and mother and other relatives of the deceased were present wearing green scarfs, and participated in the ceremonies.

A meeting, which was attended by not less than four thousand people, was held at Nottingham to-day, to advocate the extension of amnesty to Fenian prisoners. Inflammatory speeches were made, but the meeting was orderly.

DUBLIN, October 10.—A meeting and procession of those favoring amnesty to Fenian prisoners was held here to day. The meeting was quiet and orderly.

AUSTRIA.

VIENNA, October 10.—The Emperor, Francis Joseph, will start on his journey to the East on the 24th of October. He will meet the Empress Eugenie at Constantinople, and in company with Her Majesty and suite will proceed by way of Jaffa and Jerusalem to Suez, to attend the opening of the canal. The French, Austrian and Turkish fleets will accompany the sovereigns on their voyage to the isthmus.

Horace Greeley Accepts.

(By Telegraph to the Pittsburgh Gazette.)

NEW YORK, October 10.—Horace Greeley has written a letter accepting the nomination for Comptroller, tendered him by the Republican State Committee. He says he did not want or exyect the nomination, and does not desire the office; but under a sense of the responsibilities and duties of the political life, he accepts it without hesitation.

—Ex-President Millard Fillmore will have a public reception this morning in Louisville.

NEW YORK CITY.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, October 9, 1869.

The flags on City Hall and the public buildings are to-day half masted in respect to the memory of Ex-President Pierce.

It is stated that about thirty thousand dollars' worth of the bonds robbed from the Dutchess Mutual Insurance Company last night are negotiable. Walker Williams has been arrested as one of the burglars and sent to prison for trial.

The steamer Euterpe left yesterday for Havana with her original cargo of munitions of war. The Cuban residents observed the anniversary of the revolution in the island as a day of prayer for their country. A civic celebration took place in the evening in the Cooper Institute.

BRIEF TELEGRAMS.

—The first Wyoming Legislature will convene on the 12th inst.

—Jeff Davis arrived in Baltimore Tuesday by steamer from Europe.

—The death of Baron Haussmann, of Bordeaux, France, is contradicted.

—The track of the Denver Pacific Railroad is completed sixteen miles from Cheyenne.

—Admiral Farragut, who has been seriously ill for several days in Chicago, is getting better.

—Vice President Colfax is in Cheyenne, where he is detained on account of the sickness of his mother.

—The earnings of the Union Pacific Railroad since its opening in May are over three millions of dollars.

—The St Louis fair closed Saturday after the most successful exhibition ever, perpaps, made in the West.

—The earnings of the Marietta and Cincinnati Railroad for September was one hundred and forty thousand dollars.

—The internal revenue collections for the Third Ohio district, Dayton office, for September, was fifteen thousand dollars.

—Secretary Boutwell has consented to increase the amount of gold to be sold to Baltimore importers to $1,00,000 per week.

—On Monday night last, at New Castle, Mass., there was a tidal wave, one hundred and twenty-five feet above high water mark.

—The Central Republican Junta of Cuba and Porto Rico, have issued an address regarding the neutrality of the United States.

—A number of capitalists from the East arrived at Omaha Friday, with a view of investing in the Omaha and Northwestern Railroads, a part of which they intend to build.

—The coal was removed from the steamer Cuba on Saturday. She had but ten tons on board, barely enough to steam eight hours, which is evidence that she entered port in distress.

—Capt. J. C. Gallaher, a prominent member of the Memphis boat club, was drowned Sunday evening by his shell boat colliding with a coal barge. His body was not recovered.

—The safe of the Duchess County, New York, Mutual Insurance Company was blowed open by burglars Saturday night and robbed of about six thousand dollars in coupon bonds and sixty thousand dollars in bonds and mortgages.

—The late storm at St. Johns, N. B., was very destructive. Between Fredericton and St. Johns more than fifty houses and barns were unroofed or wholly destroyed and many orchards were badly damaged. The loss in Albert county is estimated at $500,000.

—The programme for the Louisville Commercial Convention is: Monday, march in procession to the Opera House; Tuesday evening, grand concert; Wednesday evening, a ball; Thursday morning, a grand parade, and on Friday evening a banquet.

—Five Arrapahoe Chiefs, named respectively Head Medicineman, Friday, Sorrel Horse, Little Wolf and Cutfoot, are at Cheyenne. Their business is with Governor Campbell, to arrange a treaty with the Snake and other tribes, and to fortify their tribes against the Southern Sioux and Cheyennes, who threaten their extermination.

—Another detachment left Havana on Saturday for the seat of war. Coasting steamers and Spanish men-of-war are actively engaged in cruising along the coast. It was one year Friday since the insurrection in Cuba broke out in Yara. *La Voz de Cuba* publishes, without comment, the proclamation of Queen Victoria declaring the Confederates of America belligerents.

Important Telegraph Change.

Among the many improvements in Allegheny, we notice the removal of the office of the Western Union Telegraph Company to an excellent location on the corner of Federal street and Stockton avenue, where they have added a large number of wires to those in the old office, and are now working *direct* to all leading points. This is a decided improvement, and we think the citizens on the other side will appreciate this enterprise. The new office is being tastefully fitted up, and will be second to none of the size in the country. Mr. R. B. Hoover is the manager, and will be found there at all times to take charge of and forward all business left to his care.

The Third Ward Ticket.—We earnestly urge our Republican friends of the Third ward to lend hearty and earnest support to their Council ticket, which is composed of the very best material the ward can afford. Messrs. Gallaher, Sims and Jahn are all members of the present Council, and have had liberal experience in the conduct of municipal affairs, and by all means should be returned to their seats. Mr. Sheib will be a new member, but he is a gentleman of knowledge and ability, and will rapidly secure the standing in Councils his qualifications merit. Again we urge the Republicans of the ward to stand closely by the ticket if they would consult their own interests.

Burglary.—During the fire yesterday morning the clothing store of Mr. Lowe, on Smithfield street, was robbed of a number of shirts and other furnishing goods. The thief broke the glass and took the articles out of the window.

CITY AND SUBURBAN.

The Dome of St. Paul's.

When we ardently sighed for the taking down of the proud, but dangerous wooden spire of St. Paul's Cathedral—erected through the stupidity of somebody as a transitory thing of glory—we felt that the promised dome to supplant it as an ornament to that noble structure would prove something worthy of interest, and of such graceful proportions as to add beauty to an edifice in which we all have a pride, whether Catholic or Protestant, inasmuch as it adds largely to the architectural attractions of the city. But alas! for human hopes! The much talked-of *dome* has at length assumed shape and appears like the cross-mounted top of a butter bowl, or the perforated cap of a pepper-box. To be plain, we believe it to be the most ungraceful piece of architectural work discoverable on the continent, and whosoever has authority in the matter should at once suspend the work and order a design more consistent with good taste and more in keeping with the general character of the edifice. If such a dome be permitted to rest as a permanent *adornment* of the Cathedral we should advise those who have hitherto pointed to the massive pile with feelings of pride to seek some other object about which to go into enthusiasm. The dome is out of proportion and squatty, insulting to all rules of good taste and correct architecture, and the sooner it is replaced by something more in accord with the original idea of the massiveness and heavy grandeur of the cathedral the better. We feel confident that there has been some mistake made on the part of the carpenters in a departure from the design, else the architect having the matter in charge should hold his head in shame, for a worse job he could not well have designed.

The Election To-morrow.—There is a great deal of interest manifested as to the result of the coming election, but notwithstanding the excitement our readers will find Messrs. Croft & Phillips at their office ready to distribute to all those seeking homes copies of the Pittsburgh *Real Estate Register*. If you want to buy a farm, house or lot, city or suburban residence, dont fail to get the *Register*. It is given away gratis or will be sent by mail free to any address. Office No. 139 Fourth avenue.

The Fourth Ward Aldermanship.

MESSRS. EDITORS:—In your issue of Friday, the 8th inst, I noticed a communication under the heading "Citizens' Candidate," calling upon Mr. John P. Hornish to permit his name to be used as a candidate for Alderman, signed "Many Citizens." Permit me to ask, through your columns, who are the many citizens spoken of? I have been a resident of the Fourth ward for upwards of twenty years, and have a fair acquaintance throughout it, and yet, I am unable to discover the first citizen of prominence or respectability who will support Mr. Hornish, either politically or otherwise.

This would-be Alderman was originally a Democrat, but ambitious of political honors, he ignored the claims of the Democrats, thinking thereby to secure the nomination of Alderman, at the hands of the Republican party. Being disastrously defeated at the primary election—receiving but 81 votes, while his opponent, Alderman Donaldson, had some 206 votes—he now accepts a mild request, announces himself a "Citizens' Candidate." I ought further to say that prior to this man's aspiring to office, our elections have always been harmonious and satisfactory to all partisans, and I think it is but proper to again rebuke him on to-morrow (Tuesday), by the uniting of all citizens in the support of Alderman Donaldson, who is too well known to the business public of Pittsburgh as a man of integrity and character to need any comments at my hands.

FOURTH WARD.

Fourteenth Ward Republican Nominations.

On Saturday the Republicans of the Fourteenth ward held their primary meeting, with the following result:

Of the tax on spirits Messrs. Joseph S. Finch & Co., paid alone nearly $27,000.

Another Fire.—Between nine and ten o'clock Saturday night, a slight fire occurred in the cellar under the Central Bank on Fifth avenue. It appears that the cellar is used to deposit ashes and other rubbish in, and one of the rooms was swept out and the rubbish deposited on the ash pile and in a few moments a bucket of hot ashes was thrown upon it, which caused the fire. The Vigilant engine was in service and the fire was extinguished before any damage was done.

Lecture.

Miss Sarah P. Kidder will deliver a free lecture, explanatory of the system of Soldiers' Orphan Schools, in the Methodist Episcopal Church at Braddock's Field, on Monday evening, October 11th, at 7¼ o'clock P. M.; also at the McKeesport Baptist Church on Tuesday evening, October 12th, at 7½ o'clock P. M. The object is a noble one, and Miss Kidder bears testimonials from leading men of this State. The lecture is a happily conceived and well written production, and was listened to with much interest by a highly appreciative audience in this city. Every one should hear it.

Almost a Fire.—About half past twelve o'clock yesterday morning, a slight fire occurred in a job printing office on the third floor of Philo Hall building, but it was extinguished before any serious damage was done.

Marvin's Crackers have no superior in the market. Special care is taken in their manufacture, and as a consequence, the best article is produced. They should be on hand in every house, as no table is complete without such articles.

Summer in Kansas—Rains—Floods—Formation of the Country—Boulders of Quartzine—Drift Formations—Fruits—Kansas Takes the Highest Prize for Fruit in Philadelphia—Interesting Extract—General Remarks.

[Correspondence of the Pittsburgh Gazette.]

JEFFERSON CO., KANSAS, }
October 1, 1869. }

I have now been here about four months, and have seen the whole of a Kansas summer. For a few days the thermometer ranged above 90 degrees, and one day it touched 100 degrees; but at no time have we had what in the East we most complain of, oppressive sultriness. We have had an unusual amount of rain, and frequent floods. In some localities west and south of us considerable damage was done, with lamentable loss of life, from the sudden rising of the streams. Out on the plains, far to the west of this, the rains have been very frequent and heavy, so much so that for three months the Kansas river was kept in almost continual flood. Only a few days ago, while the streams in this part of the State were low and the weather dry, the river suddenly rose to high flood and kept up for nearly a week. When those immense plains are thoroughly drenched with water it takes a long time to drain them off.

Take one year with another, more rain falls in Kansas than in Pennsylvania—less in the fall and winter, but more in the spring and summer. But, unlike Indiana and Illinois, the ground does not become covered over with a sheet of water after a heavy rain. This is partly owing to the undulating surface, and partly to the sand in the soil, which causes it to absorb water rapidly. It takes a very heavy rain, indeed, to cause water to flow off a well-ploughed field. Off the unbroken prairie it flows freely. The effect of this will be, that as the land is brought under cultivation, floods will be less and the permanent flow of springs greater. This, in the well-settled parts of the country, is already observable.

As this is a lime-stone country,—more so than any I ever saw,—the water of wells and springs is hard; hence cisterns are coming into general use, not because the water of wells is not good, for it is excellent, but to secure a supply of soft water.

Chills and fevers are prevalent just now in the valleys where the soil is excessively rich and vegetation rank; but on the higher grounds, the upland prairie, the people are generally in the enjoyment of very good health. Many men when they come out here make a great mistake. They choose the richest land they can find, which is generally the lowest, and the consequence is that they and their families lose more by ill health than they gain by heavy crops. Indeed most of the upland prairie is very rich, and better adapted for wheat, fruit, potatoes and many other things, than the rich bottom lands; and some of the finest fields of corn I have seen this season were on these high lands. I have noticed in my excursions through this country more evidences of solid thrift on the high than on the low lands. Since I have been here I have been on the high prairies, breathing the purest air I ever enjoyed, and I feel younger, stronger and more active than I have felt for ten years. Although settlement and cultivation will ultimately render these low lands healthy, yet I would advise immigrants to choose the high ground for the present, provided they set a higher value upon good health than upon monster crops of corn.

These uplands are composed of rich sandy loam, resting upon successive strata of limestone. In some places sandstone are found. The subsoil is strongly impregnated with lime, and is of a light chocolate color. The top soil varies in color from dark chocolate to black, and is from one to three feet deep. In no place that I have seen can the plow reach the subsoil, but the roots of grass and trees penetrate it deeply. If it could be intermixed with the top soil it would be good.

A very large proportion of these high prairies is composed of drift. Quartzine boulders, from a ton weight down to mere pebbles, are scattered over the soil, some lying partly above the surface and some below. On the southeastern points of the higher lands these boulders are most numerous, and often intermixed with water-worn pebbles of quartz and other hard stone, which have been deposited by mighty forces of water during the drift period. Some of these boulders are very beautiful, a mixture of red, white, green and other colors, some mottled and some having very pretty wavey lines. But they are the hardest, heaviest and most impracticable stones I ever saw. They are of igneous origin, and have been drifted from the Rocky Mountains far to the north.

It is to these drifts that this State owes its matchless adaptability to fruit growing. In Illinois there are some drifts at long intervals, and it is there that we find the finest and most productive orchards. The high grounds of Kansas are nearly all drift; and hence its beauty and fruitfulness. Moreover, the atmosphere here is purer than it is in any part of the country east of the Mississippi. Hence fruit trees not only grow with great vigor, but the fruit is "fair." I have not seen a scabby peach in this State.

You have seen the announcement that Kansas took the gold medal, the highest prize, at the late biennial meeting of the American Pomological Society a Philadelphia for the best collection of fruit on exhibition on that occasion, where more than twenty States were represented. In a letter from C. B. Lines, Esq., one of the delegates from this State, we have an excellent report of that interesting affair. Allow me to quote a paragraph:

"From the opening of the Fair on Wednesday morning, the hall was greatly crowded with admiring and deeply interested visitors, and the Kansas tables were the centre of attraction, both on account of the greatly superior character of the fruits and the artistic manner in which they were displayed. All the delegation devoted much of their time at the tables, protecting the fruit from being handled, and answering the many inquiries that were made. The old Quaker gentlemen and ladies seemed deeply interested in our exhibition. They would ask us, 'Did all these fruits grow in Kansas?' and 'Did thee come from Kansas with them?' 'How could thee bring them so far in such good order?' and 'Did'st thee know good old John Brown in Kansas?' &c. Everybody, without any exception, who made any remarks while surveying the fruit, pronounced it decidedly the finest on exhibition, as it most certainly was. The visitors were mostly from the better classes of society, intelligent and wealthy, and a large number of them were fruit growers, and in commenting on the display, would remark, 'This exhibition of such splendid fruit will be a great thing for your young State;' 'It will be worth millions of dollars to you;' 'It will bring crowds of people to locate among you,' &c. And in moving about in the crowds we could hear persons inquiring of others, 'Have you seen the Kansas fruits?' And in the street cars and at the hotels no allusion was made to the fair without referring to the Kansas exhibition. The sensation was decided and universal."

The writer subsequently remarks: "By the unanimous action of the Society's Executive Board, the Kansas State Horticultural Society was awarded by the Horticultural Society of the great State of Pennsylvania their Gold Medal for a superior collection of fruits, which is the highest award they could make, and was not made to any other collection. The fruits sent in by the old State of New Jersey, where there are thousands of professional fruit growers, only received a Silver Medal; while the farmers of Kansas, a State not yet sixteen years old, and nearly 2,000 miles distant, carry off the first prize."

In a series of letters to the GAZETTE written more than two years ago, I spoke of Kansas as likely to become the best fruit and grape growing State this side of California; but I hardly expected then that it would so soon be able to enter the lists successfully against all the other States. I saw that it was admirably adapted to that business, and expressed my convictions. Some thought me a little enthusiastic, but after reading the foregoing they will perhaps be satisfied that I spoke soberly enough. The day is not distant when the fruit, grapes and wine of this State will be of great commercial value. Fruits, large and small, can be grown here more cheaply and of better quality than in any other part of the Union which drains into the Atlantic. Fresh, dried and canned, they can be sent eastward and command the highest prices on account of their superior quality; and when the railroad to Denver is finished—which will be in a year or two—large quantities will be sent westward. No large fruit can be successfully cultivated west of Fort Harker; it follows, therefore, that the supply of all that immense region will devolve upon the eastern half of Kansas.

Except California, no part of the United States produces such grapes as this. I speak both as regards quality, abundant bearing, and exemption from blight. The people here are beginning to manufacture wine; and as millions of new vines are set every year, the business must increase with great rapidity. But so long as grapes can be sold in the cities for ten cents per pound and upwards, the profit of growing them and disposing of them in that shape is quite satisfactory. But the business is yet quite new, and this day there are probably ten vines not yet come into bearing for one which has.

I might speak of the corn crop of the present year, which exceeds anything before known in this State both for breadth and heaviness of crop. Farmers are afraid that there is so much of it that the price will be very low. But as the crop in other States is a short one, I have no fears of the kind. The trouble here is, that as many of the farmers are too poor to hold on to it, they will fall a prey to speculators.

The crop of potatoes is enormous, and the size and quality the very best. Sweet potatoes grow finely, and are fully equal to those of New Jersey in quality, I think the high prairies suit them best.

I might say many other things of this singularly beautiful and productive country, but this letter is already longer than I intended to make it. J. C.

WHAT IS A PUNCH?—The following piquant reply to the foregoing question savors more of science than it does of total abstinence, but somewhat less of science than of carnal appreciation:

Experience has proved that the juice of three or four lemons and three-quarters of a pound of loaf sugar dissolved in three pints of boiling water, give saporous waves which strike the palate at such intervals that the thrilling acidity of the lemon juice, and the cloying sweetness of the sugar are no longer distinguishable. We have, in fact, a harmony of saporific notes. The pitch, however, is too low, and to highten it, we infuse in the boiling water the fragrant yellow rind of one lemon. Here we might pause if the soul of man craved no higher result than lemonade. But to attain the culminating saporosity of punch, we must dash into the bowl at least a pint of rum, and nearly the same volume of brandy. The molecules of alcohol, sugar and citric acid collide, an entirely new series of vibrations are produced—tremors to which the dullest palate is attuned. In punch, then, we have rythm within rythm, and all that philosophy can do is to take kindly to its subtle harmonies. It will depend in some measure upon previous habits, whether the punch, when mixed, will be taken in excess or in moderation. It may become a dangerous ally, and bring a sentient being to the gutter. But, on the other hand, it may become the potent inward stimulus of a noble outward life."

THE CRIME OF THE DAY is opium eating. Not that men and women chew opium gum as did Charles Lamb. But opium distilled and concentrated into a thousand forms. Its most common garb is laudanum. It appears to the amount of a grain in every bottle of Ayer's Cherry Pectoral. It is in Mrs. Winslow's Soothing Syrup. Half the quack medicines have it. It was that which gave the "King of Pain" success. Nearly all the pain antidotes are surcharged with it. All the cough lozenges have more or less of it. It is the medicine and curse of the day.

But not only those who take opium in some of the medicines that are vended from the druggists, are becoming more common, but those who take it in its clear form, purely as a stimulant. It is a fearfully common practice with those who are accustomed to late hours, with ladies as well as gentlemen. This is the testimony of the druggists, who above all others ought to know. They declare that the sale of opium has increased enormously of late. The sensations produced by it are so delicious, that when once experienced, few can resist their enchantment. Alas, how soon the enthralment is over, and the victim awakes to misery and agony. There is no agony like that of the opium eater. His way is straight down to ruin and death.—*St. Paul Dispatch.*

LETTER FROM ST. LOUIS.

[Correspondence of the Pittsburgh Gazette.]

ST. LOUIS, Oct. 6, 1869.

Anyone who writes from or about St. Louis this week, must needs write about the Fair, which absorbs universal attention; and yet, as I think of it, the subject naturally divides itself into two chapters, of which only the first would relate to the great St. Louis Annual Fair, now going on. This is the big event of the year in these parts, and is big both relatively as compared with others of its class, and absolutely. Everybody in the Mississippi Valley from St. Paul to New Orleans, who has a new fangled gimcrack from a mouse trap to a mowing machine, or whose wife has got up a set of stupendously embroidered baby-linen, or a bottle of currant wine, is an exhibitor here, and brings all his friends with him. Crowds? yes I should think so. Miss. Anthony's theory of opposition to double beds wasn't calculated for this latitude in fair week. Every house is a hotel, every vehicle is a public hack—good thing, no license required to carry passengers to the fair ground this week.

One fair of this kind is so much like another, differing so far as I can see only in bigness, and in comparative difficulty in seeing anything, that I waste few words on this. Perhaps as a veracious and responsible correspondent I should go out there and take notes. I hear there are some fine hogs there, but I can't confess to any sympathy with the porcine race. On the whole, I am gratifying myself and solacing my conscience by religiously staying away, but if any of the dear readers of the GAZETTE want to know anything about it, I'll send them one of our dailies, that are crammed with it.

Staying away, however, does not relieve one from all the annoyances of this carnival of the agriculturists. No engineering can save you from being jostled every ten yards by ladies and gentlemen from the rural districts, to whom three persons are a crowd and ten a multitude, and who are innocent of all the etiquette of the sidewalk. You turn from habit to the right, and plump you go against some buxom damsel; you dodge to the left, to find your ribs fractured by the elbows of some stout farmer—you apologize and shoot straight forward to be brought up by a group of six who have not met since they left their native hamlet, and have chosen the middle of the sidewalk to compare experiences. They tread on your corns in admirable unconsciousness, they get your favorite seat at the dinner table spite of the tactics of the Prince of stewards at the Planter's, who looks so much like Gen. McClellan that some people have supposed that distinguished officer had found this the most suitable field for his military genius to operate in.

They are everywhere, and goodness knows where they stay nights. The fair is a delight to them, and a visit to it, doubtless to many, an event long to be remembered! but to me—peace, perturbed spirit! hain't you got a pass in your pocket? thanks to the handsome general ticket agent of the Terre Haute line; and isn't your berth engaged, and don't you mean to fly to night from all these sources of distress—to leave the world, so to speak, and go to Cincinnati? Ah, yes! and therefore let us have peace!

But the other chapter, of which the theme must be the fair—sex, how shall I begin it? With "woman as she is," and using for illustration the Worrell Sisters, of whom it may be said one sees a good deal on very short acquaintance, or "woman as she should be," with Susan B. Anthony for a pattern as she now holds forth at the great Female Suffrage Convention; or woman as she emphatically shouldn't be, with an instance of Anonymas, whose team of spanking blacks occasionally get an airing on our principal thoroughfares. No lack for material, you see; only for time to do justice to the whole of it.

To-night the convention sits with open doors, men invited. If you go there, you will see Mrs. Julia Ward Howe read an essay which fifty people nearest the platform will hear. You will hear Mrs. Livermore, of Chicago, speak well, and you will see Dr. Mary Walker squelched if she tries to put in. The Doctor wears pantaloons literally, and the wearers of metaphorical pantaloons scorn and disown her accordingly. By the way, the anatomy of public characters is public property, I believe. Far be it from me to commit the virtuous types of the GAZETTE to an indelicacy, but as a matter of interesting information may I be permitted to introduce this diagram,

( )

which I have high authority for saying represents the construction of Miss Walker's neher extensions! Such is her heroism, however, that she scorns to disguise this fact by assuming the ordinary attire of the female of America.

I may remark also of another distinguished female, Miss Anthony, that I came down town in a street car with her the other night. I observed numerous gentlemen suspending themselves by straps, but did not observe that she offered her seat to any of them. You see the ladies are having it their own way here now-a-days.

The South Pacific Railroad has completed its extension to Lebanon, fifty miles this side of Springfield, which town they will reach in the spring, and open communication with one of the finest agricultural regions in the West.

The Pacific Railroad (of Mo.) has lost Col. Moore, its Superintendent. I believe he was regarded as efficient, but was unpopular with the employes. At his appointment a year ago, a strike occurred among the engineers, which gave great trouble. The new Superintendent Mr. Hale, was lately connected with the Chicago and Alton Railroad. Mr. Garrison, the President of the Pacific is a host in himself. He knows how to run a road, and wants no Superintendent to teach him. *Au revoir.*

HITTY MAGINN,

LETTERS have been received from Georgia saying that there is a good prospect of a reunion of the Republican party in that State, and a compromise between the Republicans and the Democrats, the result of which will be the adoption of the Fifteenth Amendment by the State Legislature at its next meeting. Already some of the most prominent men of the contending parties have held a consultation, with a view to secure to the State a firm position in the Union.

PRUSSIA complains that America has sent over there a delegation of Woman's Rights women to agitate.

RIVER NEWS.

The river continues to recede slowly at this port, with about 33 inches in the channel last evening. We had considerable rain on Saturday night, but not enough to have any material effect on the river. The weather yesterday was cloudy and raw.

The Glendale arrived yesterday afternoon drawing 32 inches. She came to the foot of Brunot drawing 3 feet 3 inches, but was obliged to lighten up to 32 inches before she could get over. Her officers report having met the Mollie Ebert all right, on Saturday evening.

The Sallie is still aground at Glass House, and it is probable she will have to remain there until there is more water. She is lying broadside across the river with her head in the channel.

Capt. John W. Anawalt, of the Wild Duck, arrived from Cincinnati yesterday morning, having come through by rail. He reports heavy rains at Cincinnati on Saturday.

A committee of coal men left for Parkersburg on Saturday, on the Mollie Ebert, to confer with President Garnett, of the Baltimore & Ohio railroad, in reference to the bridge which is being constructed at that place.

The New State arrived from Wheeling, and the Julia No. 2 from Zanesville, is expected in to-day.

—The Bellevernon and R. C. Gray were at Evansville on Thursday.

—The Lorena left Cincinnati for Memphis on Thursday, drawing five feet.

—The Wild Duck, St. Louis to Pittsburgh with two barges of ore, passed Cairo on Thursday.

—The river front at Memphis has lately been caving in, and has excited the serious fears of river men and Memphis citizens generally.

—There are now nineteen first class steamers plying the Red river trade from New Orleans. What a field of operations for some of our enterprising steamboatmen!

—Shipments of goods this year up White river have exceeded two-thirds those of last year, when only five steamers did the whole business. This season it is found impossible for seven boats to do the business.

—A late Memphis exchange says: An epidemic of "jumping" vessels just as they are about leaving port is just now prevailing to an alarming extent at this and other ports. The jumping business is indulged in generally by the deck crew. When boats have steam up, ready to back out, the men jump ashore, and thus cause detention.

—The Louisville *Courier-Journal*, says: Gen. Weitzel's dam is the scene of active operations. Span fourteen of the great bridge is completed, and workmen are getting the martial on the ground for number fifteen. The last pier on the Indiana shore is at length finished; the roadway laid, and a train of construction cars came out on the bridge yesterday morning, the first that has left that shore. The channel way at the Indiana chute has been finally closed, and the scaffolding will be rushed up without further delay.

—Snow at Diamond City—The Missouri rising—From a gentleman who crossed the Canon Ferry yesterday, we learn that the Missouri river had risen about eight or ten inches in forty-eight hours, caused by the snow and rain which had fallen at and around Diamond City. Enough snow fell to cover the mountains with a white drapery, and at intervals the surrounding neighborhood was visited with a pulsive dispensation. This rise will probably enable the delayed Benton packets to reach this port sooner than we expected.—Helena *Gazette*, Sept. 26.

—A Louisville dispatch to the Cincinnati *Commercial* says: Another workman, Cornelius Barret, lost his life by falling from the railroad bridge over the falls, making the tenth life lost by this structure. A plank of the pontoon bridge across the Indiana chute broke, and he was swept down the torrent of waters. The fourteenth span, from the Indiana side, of the bridge is completed, and the fifteenth commenced above tide water, and the roadway from the Jeffersonville Railroad completed from the shore to the backbone, and is used by construction trains. The Indiana chute is effectually closed against all kinds of navigation, and nothing that floats can pass the falls excepting of capacity to go through the canal. The bridge company expect to have it completed before the new year.

PACIFIC RAILWAY GOLD LOAN.

Messrs. DABNEY, MORGAN & CO., 53 Exchange Place, and M. K. JESUP & CO., 12 Pine Street, N. Y., offer for sale the Bonds of the Kansas Pacific Railway. These Bonds pay seven per cent. in Gold; have thirty years to run; are Free from Government Taxation; are secured by a Land Grant of Three Million Acres of the Finest Lands in Kansas and Colorado. In addition to this special grant the Company also owns Three Millions of Acres in Kansas, which are being rapidly sold to develop the country and improve the road. They are a first mortgage upon the extension of the road from Sheridan, Kansas, to Denver, Colorado. The road in operation, 437 miles long, upon which it is also a mortgage, NOW EARNS MORE THAN ENOUGH NET INCOME TO PAY THE INTEREST ON THE NEW LOAN. There is no better security in the market—this being in some respects better than Government Securities. PRINCIPAL AND INTEREST PAYABLE IN GOLD. Price 96, and accrued Interest, in Currency. Pamphlets, Maps and Circulars furnished on application.

We have a full supply of the above Bonds on hand and for sale, and we take pleasure in recommending them as a very reliable and perfectly safe investment.

SECURITY AND COMFORT
for the traveling community.
J. B. HARRIS
Safety Fire Jacket, Car Heater and
MODERATOR.

For Smoke and Hot Air Flues, dispensing with the use of stoves and fires in or about the Passenger or Baggage Cars, with the attachment to graduate the heat to any temperature that may be desired without the possibility of firing the car or cars to which the Jacket may be attached. Having obtained of the United States Letters Patent for a Safety Jacket, which is warranted to resist the most intense heat that may be applied to it in the position and purpose for which it is intended.

It is a sure protection from accidents by fire, originating from defective flues or where iron pipes are used as conductors for smoke or heat. It is applicable to all piping that may become overheated, and is warranted to give perfect satisfaction where wood or other combustible material may be placed in close proximity thereto, I am now ready to apply my invention to stores, dwellings, factories, ships, steamboats, railroad cars, &c. Wherever pipes as conductors are made dangerous by being overheated and security desired, I will send on application right to manufacture or use the above invention. Also Territorial rights to such as may wish to engage in selling privileges either by State or county.

☞ **HEADQUARTERS UNION REPUBLICAN EXECUTIVE COMMITTEE.**

To the Union Republican Voters and Vigilance Committees of Allegheny County.

But one working day remains before the election. Every Republican should devote that day to active, diligent work.

The Local Vigilance Committees should meet nightly until election day, and thoroughly examine and canvass their lists. If the names of any legal voters are not on the registration list, they should nevertheless be brought to the polls, and on making the proofs by affidavit, provided for by the registry law, they will be allowed to vote.

In every election district there should be SPECIAL COMMITTEES APPOINTED TO MARK OFF the names of those who have voted, and in that manner you can ascertain who has not, up to three o'clock, voted. AFTER THAT HOUR SEND OUT for all such and have them brought in. HAVE CHALLENGERS APPOINTED in every election district, of good, reliable Republicans, who are well acquainted with the citizens of the district. See that the tickets are correct and properly distributed.

Bear in mind that, under the new Registry law, the polls in city and county must be opened between the hours of *six and seven o'clock* in the morning, and closed at 7 o'clock in the evening.

This will give an opportunity to many of the working and business men to vote before going to their labors.

In another column of this paper you will find the address of the Naturalization Committee, setting forth what constitute the requisite qualifications of voters, and containing other information, to which your careful attention is invited.

Remember that every naturalized voter must present his certificate of naturalization to the Election Board, and should therefore carry it with him on going to the polls.

Voters should be careful to examine their tickets and see that they are right, as the opposition have flooded the County with spurious ones, in the main Republican, but having on them names of certain of their candidates, and more especially the name of WM. H. McGEE, Democratic nominee for Commissioner, instead of that of *CHAUNCEY B. BOSTWICK, the regular Republican nominee.*

It is to be hoped that every measure will be adopted, by the earnest Republicans and the Vigilance Committees of this county, to bring out on Tuesday next a FULL REPUBLICAN VOTE, and thus secure a great Republican victory.

By order of the Executive Committee.
W. S. PURVIANCE, Chairman,
WALTER S. McCUNE, COL. GEO. F. MORGAN, } Secretaries.

VIRGINIA has ratified the XIVth and XVth Articles, with an almost unanimous vote of her new Legislature. Now for Ohio to-morrow—and Mississippi and Texas next month—and Georgia to follow in due time.

AN opposition editor at Altoona "believes that he has made a mistake in supporting Packer in the Convention." There is so little doubt of this, that the people will take warning from his unhappy example.

◆

WHAT could be more humiliating than to have the Governorship bought with money. Mr. Packer has nothing else to give for it. Neither valuable public services, nor the capacity to render such services. He has money, and nothing else.

◆

AN honest Democratic journal, the New York *Citizen*, alluding to the want of any indications of true loyalty in the Harrisburg platform on which Mr. Asa Packer stands, frankly declares that it "neither expects nor wishes that such a party should carry Pennsylvania."

MR. H. W. WILLIAMS is an accomplished jurist, has been long on the bench, and is widely recognized as a learned and upright magistrate. In his election the rights of the people, by a faithful rendering of all constitutional questions, will be abundantly secured.

◆

ON the eve of elections the Democrats ordinarily set all sorts of deceptive reports in circulation. Be not deceived by any of them. Every thing for which the slightest show of proof can be adduced, was brought out early in the canvass. All late reports are designed to impose upon the voters.

THE Lake Shore Railway Company seems to have been hit hard by the failure of their Treasurer. A dispatch says:

> It was understood that they have decided to issue $2,000,000 convertible sinking fund bonds, bearing seven per cent. interest, to meet the immediate liabilities of the Company, and more especially to take up the Wabash stock falling due on the 15th inst.

THE Republican party cannot afford to lose a single vote to-morrow. Let no citizen stay at home and pray for the success of the ticket through his neighbors, votes and exertions. Go to the polls early and deposit your vote, and then see to it that your Republican neighbors do likewise.

NOTHING can be more at variance in with the spirit of genuine Democracy than to make the possession of wealth a recommendation for public station. Mr. PACKER has nothing but money to distinguish him from the masses of his fellow-citizens, and but for his money would never have been thought of in connection with the Gubernatorial office.

◆

A CORRESPONDENT writes us concerning a dirty little trick which has been resorted to, by a local opponent of Hon. MILES HUMPHREYS, a candidate on our legislative ticket. It has been exposed and can do no harm to the prospects of Mr. H. His legislative record has triumphantly challenged the scrutiny of all his honest constituents.

◆

REPUBLICS, whenever true to elementary principles, endeavor to ameliorate the condition of the poor and oppressed; to protect them in the enjoyment of equal political rights with their more prosperous fellow-citizens, and to give them fair chances for bettering their circumstances. What sympathy has Mr. Packer shown for poor men, since he left the ranks of that class?

◆

A VOTE for Packer is a vote for the repeal of the railway tonnage-tax, which subjects the great corporation under his control to a large contribution for the expenses of the Commonwealth. Repeal the tax and the people will have the amount to make good, in some other form, from their own pockets. Shall we aid Mr. Packer in dodging this tax, as he has already dodged his personal obligations?

◆

LOOK OUT for spurious naturalization papers to-morrow. The Registry law has a rod in pickle for any man who attempts to use that kind of a document. Remember that high Democratic authority confesses that *twenty-two thousand* of them were voted on last year. These coffee-stained certificates of knavery are all extant, and some of them may turn up at the polls to-morrow. Watch for them, and nail their owners!

IN 1862 this country shook under the tread of armed hosts. The constituted authorities called loudly upon the people for help. Strong hands and brave hearts were wanted for duty on the field of battle. GEARY went himself, taking his son with him; and the son was slain in one of the bloodiest fields of the war. PACKER staid at home intent only on doubling his millions. Which of them, in these times of peace, deserve the grateful recognitions of the men of Pennsylvania?

◆

IN 1861 the debt of this State was almost $38,000,000. Nearly $4,000,000 was added thereto by the Republicans, after the war began, to arm and equip soldiers for the work of putting down the Rebellion. November 30th, 1868, which was the date of the last official exhibit, the debt was reduced to less than $33,000,000. Nine millions and more paid off. The State Treasurer now proposes to cancel another million of the debt, due July 1st, 1870, and will accomplish it in advance of that date.

A VERY large audience listened, on Saturday evening, with sincere satisfaction, to the speech of H. BUCHER SWOPE, Esq. An open-air meeting, and held at one of the most conspicuous points in a crowded thoroughfare, the people gave careful attention, and constantly reiterated the tokens of their appreciation. Mr. SWOPE has not been half well enough known by the people of these cities. But he is now in a fair way to be better known and appreciated. His address on Saturday night was the gem of the canvass here, and will be so remembered.

IT is clearly the better opinion now that the XVth Article does not apply to Chinese immigration. In his late speech at Cincinnati, this opinion was faithfully expressed by Senator MORTON, who spoke of the amendment thus:

> It provides that no citizen of the United States shall be debarred from the right of suffrage on account of race or color or previous servitude. The Chinese are not citizens of the United States, and under the laws of the United States they cannot be. The laws of the United States do not permit them to be naturalized, and unless naturalized and first made citizens of the United States, they could not possibly come under the operation of the Fifteenth Amendment.

HERE are Asa Packer's views touching the African slave trade. He voted first to lay on the table and, subsequently, on its final passage, against, the following resolution offered by Mr. Etheridge, Dec. 19, 1856, on occasion of the landing of two slave cargoes on the Southern coast:

> *Resolved*, That this House regards all suggestions and propositions of every kind, by whomsoever made, for a revival of the African slave trade, as shocking to the moral sentiment of the enlightened portion of mankind, and that any action on the part of Congress conniving at or legalizing that horrid traffic would justly subject the Goverment and citizens of the United States to the reproach and execration of all civilized and Christian people in the world.

Yet he now asks for the votes of the free people of Pennsylvania!

◆

VOTE for PACKER to-morrow and you say to the world that the patriotism of the days of '61 was a mistake; that the war was not constitutional; that the tens of thousands of brave Union lives were needlessly lost; that rebellion was warranted and treason found no resting place in the hearts of the Southern people. Vote for GEARY, and you re-assert your loyalty and renew your gratitude to the heroes of the war; you reassure the soldier President that you are with him in heart and spirit and have no occasion to regret his elevation to office and heartily endorse his administration of public affairs. Which course will you pursue? With your country or against it? It requires but little time for the honest and patriotic citizen to make up his mind to vote the whole Republican ticket.

GOVERNOR SENTER delivers his message to the Tennessee Legislature to-day. He will urge the adoption of the XVth Article, but without avail. The Legislature is violently reactionary, and will press through to the bitterest end. Even before the organization of one branch was completed, a bill was introduced to destroy a vital part of the free school law. The Democracy are everywhere hostile to popular education. And popular education is always bad for the Democracy.

The sound Republicans of Tennessee find much reason for hope, in the revolutionary policy of the temporary majority. Their organization will be once more animated and invigorated for an assured triumph. A sincerely patriotic Conservatism holds the balance of power in Tennessee, and current events tend powerfully to Republicanize this class of citizens.

◆

NO ONE looks to a wager for an argument, but it is usually indicative of the set of the current of popular opinion. For example, large bets have been standing open for Democratic acceptance at Philadelphia, during the week past, that GEARY'S majority would not be less than five thousaud, with no takers among Mr. Packer's sporting friends. Indeed, it is understood that the Great Dodger himself surrendered his last hope of election a month ago. Now, if any Democrat in this vicinity feels more sanguine than that, and thinks his opinion, that Mr. Packer will be elected, worth backing up, we are authorized to inform him, that he can be accommodated with an investment of $1,000 or more on the event, on application at the GAZETTE counting-room, where the funds are ready for that purpose.

IF the Pittsburgh *Leader* be not neutral, it is certainly independent, and if neither of these it would probably be Democratic. Although its managers may not care for our certificate to their political impartiality, yet we must frankly acknowledge that they have held the balances most evenly throughout this canvass. Their article of yesterday, on the Republican administration of the national finances, merits our reprint in full, but space forbids. The *Leader* puts the case very forcibly. The restoration of popular confidence in the speedy payment of the debt, now going on at the rate of one hundred and twelve millions per aunum, its total extinguishment in from fifteen to twenty-five years, and the offer of European capitalists to take the whole debt now at four per cent instead of six—these points are regarded by the *Leader* as making a strong card for the Republican party. And very justly!

◆

THE ELECTION of GEARY and WILLIAMS is of great importance to the Commonwealth. It will establish the public prosperity on a basis from which it will not be possible to shake it. We urge every Republican to go to the polls to-morrow and vote for them. Do not wait for solicitations to perform this duty. Go, whether your neighbors go or not. Remember that the re-election of GEARY will continue the reduction of the public debt, and secure an honest administration. Do not fail to recollect that the issue of the present contest will have an important bearing on the next Presidential election; nay, will go far towards determining, in advance, into the hands of which party the next national administration shall fall. GRANT is doing well for the whole people. He is securing a prompt and faithful execution of the law; is reducing rapidly the national debt; has brought out offers of loans, at nearly half the present rates of interest, to take up the outstanding obligations; and is in a fair way to restore the Union, to obliterate old alienations, and to conduct the whole people into the paths of fresh concord, prosperity and power. So vote to-morrow as to approve what he has done so well, and to encourage him in further efforts in the same direction.

LEFT HIS BED AND BOARD.

The Harrisburg *Telegraph* gives notice "that Mr. Asa Packer, without any just cause or provocation, left his wife and family in Mauch Chunk, and took up a residence in a second-class tavern in Philadelphia. All persons are cautioned not to trust him. He is a Yankee sharper, won't pay his taxes, and hires a lawyer to do his fancy swearing."

STAND BY THE NOMINATIONS.

The Republicans of the two cities and boroughs have put forward candidates for the minor offices, and we trust, in the interest pertaining to the State and county tickets, none will forget to vote these tickets. It is seldom wise or proper to bolt the straight ticket in favor of any personal friend who finds place among the opposition candidates. The party organization is only kept strong and secure by close adherence to all put forward as its nominees from the highest to the lowest. If this assertion were untrue, the Democratic party would long since have been numbered among the things of the past, for they are conspicuous for their support of the whole, unbroken set of candidates nominated by their party.

LOOK OUT FOR THEM!

The Democracy are driven to the last ditch, and will adopt all sorts of dishonest practices to carry their ends. The latest form of trickery that has come under our observation is a ticket bearing *all* the names of the Republican nominees to the Assembly with an addition made thereto of one Democratic candidate. If such a ticket shall be voted, all the names it bears, from Governor to Constable, will have to be thrown out, under Section 50, of the Election Law of Pennsylvania, which reads as follows:

> "If upon opening any ticket, as aforesaid, there be found *any more names* written or printed on any of them than there ought to be, or if any two or more such papers be folded together deceitfully, such tickets shall be rejected and not counted among the votes; but no ticket shall be rejected by reason of its containing fewer names than the proper number."

MORE TAX-DODGING.

The Lehigh Valley Railway—Asa Packer's railway, the same concern whose money he is said to have pledged for the payment of wages to employees enlisting for the late war—repudiates its honest taxes to the State, and has been sued for the delinquency. The sum in default is over $25,000. This is only a little more of Mr. Packer's dodging! He succeeded so well by his carpet-bag flank movement upon Philadelphia, in bilking the State and County Treasuries of the large taxes previously assessed upon his immense wealth, that his pocket railway concern now proposes to imitate his example!

How much of this sort of thing can the Democratic tax-payers stand? If they want any more of it, they can be accommodated by electing him for Governor to-morrow.

THE ORIGINAL KNOW NOTHINGS.

In Pennsylvania are leaders of the Democracy now. Indeed, their candidate for Governor bolted a regular nomination of his party to support a dark-lantern nominee. No body denies this. The same spirit of exclusiveness which now opposes a Chinese emmigration so bitterly, was then rampant against conceding any political rights to citizens of European birth. It was the Democracy of the Philadelphia riots and church burnings, and the same Democracy which faithfully clung to the aristocratic institution of negro slavery as long as the least vestige of that shameful blot remained to the dishonor of American liberty.

Democratic politicians here, who have always supported the Southern slave-holding institution under which four millions of human beings were held in forced servitude, with no liberty whatever, and with no compensation except their board and clothes, and mighty little for these necessities, are in an agony of apprehension, because, as they say, the coming Chinese will work for $12 per month wages. They are a nice set of folks, to be jealous of such competition with the labor of the white working-man. If they are sincere in these apprehensions, why has the Democratic party always upheld Southern slavery with its no wages at all?

WHAT WAS THAT MONEY FOR?

Two checks for $4,000 each, from the Packer Corruption Fund, have been received, it is said, by the opposition leaders here, within the last ten days. Of this $8,000, contributed as it is by a "bloated bond-holder" and railway millionaire, who offers himself now as a poor man's candidate, for the corruption of the ballot-boxes to-morrow—the honest Democracy would do well to look sharply into the expenditure. They will probably find that a few hundreds are devoted to advertising, a hundred or two sent into adjoining counties to pay the liquor bills of impecunious candidates and committee-men, and the large balance is fobbed by "the corrupt and miserable clique of trading politicians" who, according to good Democratic authority—*vide* Altoona *Vindicator*—are making a tool of Asa Packer, "and seek Democratic success only as a stepping stone to plunder and the filling of their own pockets at the expense of the honest, hard-working tax-payers of this Commonwealth." This is now the interesting question with the rank and file of the opposition: Who has grabbed the $8,000?

[For the Pittsburgh Gazette.]

SIR KNIGHT HOPKINS.

HOPKINS—James H. Hopkins, Esq., not to put too fine a point on it, Sir Knight James Hopkins—Hopkins Attorney-at-Law, Solicitor in Chancery, Grnd Master of the Rolls, and like his great protype Binckley, Grand Commander of divers ancient and honorable fraternities, is a Patriot after our own heart. He has charge of the varied interests of the Democracy in Western Pennsylvania in the present political campaign, Headquarters "in the field" or which is much the same thing in his office No. 87 Grant street, up stairs. James having been born and bred in Washington county and sired by the Elder Hopkins, of olden time fame as a Canal Commissioner of our State, inherits an hereditary dislike to all sorts of fraud upon the citizens of the Commonwealth, as well as the antipathy common to "Cross Creek" Democrats, to the heroes of the late war dead or alive, and Republicanism in any shape. He is dreadfully concerned at this writing about His Excellency Governor Geary, or to adopt his own familiar style of putting it, about "Geary"—"Jack" Geary, you know! The Artful Dodger in Oliver Twist when taken into Court vainly inquired, upon scanning the faces of his Judges, "Who are those old files on the bench"—so our Sir Knight, or Illustrious Grand Commander, is wont to speak of the highest dignitaries of the State. Indeed he stands, not at all upon ceremony, but pooh-pooh's in a highly magnificent way at the Governor of the Commonwealth! In his recent order of the day, speech, address or whatever else the production may be termed, in discoursing of "Geary's" unfitness,, Sir Knight James is pleased to say thusly:

> "No man ever talked five minutes with him (Geary) without being disgusted with his inordinate vanity, and annoyed at the shallowness of his mind."

This is really good, to say nothing of its modesty, and considering the distinguished claim of our valiant friend James to the public consideration and regard is in every way equal to the insolence of the Artful Dodger, when placed in the criminal Dock. It is quite evident that the Governor on some occasion of audience has manifestly failed to signify his appreciation of the Hopkins family, and that the whole patrician tribe have accordingly taken umbrage at his Excellency. They are sadly chagrined not so much at the Governor's inordinate vanity as at the "shallowness of his mind." That he should be "vain" may be pardoned, as it is a frailty of our common nature, from which even the scions of the great house of Hopkins are not entirely exempt, but that he should be "shallow-minded" James cannot forgive or forget. If there is anything delightful in a statesmen it is a profundity—mental profundity—such as illustrates the achievements of such neophytes in political warfare as Sir Knight James Hopkins. Let the Governor only be prefound, and the Grand Commander will vote for him. Can't the matter be arranged in some way before six o'clock to-morrow?

That our grand commander cannot conscientiousty or "pon honor" vote for the Governor is humiliating enough, and is well calculated to excite alarm among those who have heretofore labored under the pleasing illusion that he was a marvelously proper man for that high office. But it is further alleged that "Geary belongs to the ring!" Ah! This, we apprehend, is the main difficulty with this Washington county knight-errant and his followers. Geary, it seems, is in the *inside* of the ring, but all the Hopkinses, big and little, including the illustrious commander of the forces hereabouts, are decidedly on the *outside*, and have been so since the demise of the late David R. Porter, of blessed memory, and the clique who then controlled the Pennsylvania canal. That a "ring" of the political sort is, in a peculiary sense, a good thing if one happens to be in it, is an ancient maxim of Democratic faith sanctioned by the traditions of Tammany and well understood by the faithful, even in Washington county. But if once you are scrouged to the outside thereof, it becomes a detestable arrangement—a sort of infernal machine—to be broken up and destroyed at all hazards, that you may get at the "unexpected balance" in the public treasury. This great expounder of Democracy Western Pennsylvania evidently does not relish the present *status* of affairs. The "ring" must be broken—the machine be smashed—that we may return to the halcyon days of the progenitor of Sir James, when the Democracy ruled the roast and the public funds were treated as their legitimate plunder. Much as we may feel disposed to oblige Sir James, we cannot, on this occasion, advise our readers to forego their convictions and vote for his candidates. On the whole, "Geary" is quite as safe as Packer, particularly if there is a large unexpended balance in the State treasury.

In what we have said we do not wish to be understood as wishing to detract from the fair fame of Sir James, or to intimate that he is not appreciated by us at his full market value. In some *rôles* he is admirable and striking. As a lawyer he is, to be sure, quite up to the average standard of young practitioners. As a Sir Knight, on occasions of dress parade, we esteem him as fully equal to the late Mr. Hamlet in court costume. But as Grand Commander of the Democratic forces in Western Pennsylvania he is not, in our humble judgment, a success. He has what Fowler would term the faculty of "invention" largely developed, but then his reasoning powers are not unlimited. He may improve with careful training, particularly in matters of etiquette, towards his superiors in age and political station. "X."

TO THE VOTERS OF ALLEGHENY COUNTY.

After almost a year's cessation from political strife, the citizens of Pennsylvania are again involved in a great contest. Divided as heretofore into two great parties—Republican and Democratic—there is yet no question before them of principle or of policy; for all such were fully discussed and emphatically passed upon by the voters of the State in the triumphant election of the Grant and Colfax electors last year. The propriety and justice of the Fifteenth Amendment, so much inveighed against by the Democracy of the present day, and the improprieties and shortcomings of the Johnson administration, with which they were only too glad, in their great desire for place and profit, to affiliate are of the past; settled by the verdict of the people of the whole country in November last, and to their entire and great satisfaction. No new issues have arisen or could since then arise, and in the canvass of this year the voters of Pennsylvania are called upon only to reaffirm or disaffirm a former verdict.

The Republicans of Allegheny county are not and have not been unwilling to open the old questions anew. On the contrary, they have invited and challenged the Democratic party to a free and full discussion before the people of every point of difference between the two parties, in the full faith and confident belief that the inevitable repetition of the vote of 1868 might in a measure tend to impress upon it the fact that there are questions which have been finally decided upon, and principles which, though good enough in their day, the progress of the country has now made obsolete; but to day the canvass in this county, now almost at an end, presents the strange spectacle of a party in power, and therefore necessarily to be assailed, willing to accord to its opponents not only an investigation of its conduct since it has been in, but also a new trial of those principles upon which the voters of the nation decided it should come into power, and yet refused such by its opponents, who have not dared to call a single public meeting or invite a single speaker in support of whatever of principle or policy the Democratic party may profess to entertain, or in assail of the principles of Republicanism, as it may chance to understand them. It has contented itself with an invitation (in print) to the people to forget its record for eight years; it has asked not to be reminded that its ruling branch in the Southern States, with a not inactive sympathy from its Northern brethren, rebelled against the authorities of the land, and, striking at the life of the nation, necessitated the loss of life, so much to be deplored by all, and the creation of the great debt under which it now says the country is groaning, and presuming that the people of the county are as short of memory as it could desire for everything which it has done during a four years' war, and since, it invokes the criticism of the voters upon financial matters pertaining to this State alone and its domestic machinery during the three years of Governor Geary's administration (on figures and statements with a more commendable kindness than accuracy, furnished them by its Chairman for Western Pennsylvania.)

It is not worth while, nor have we here the space, to pass upon the statements of the Democratic Committee relative to the (household) economy of Republican Legislatures and Governors as compared with that of similar Democratic officials. It is sufficient to say that the comparison made of Democratic expenditures in 1860, before the civil war, and of Republican expenditures in 1868, after it shows that the latter is not quite double the former, and yet when the tax-payers of the State reflect that in 1868 a new Gubernatorial mansion, belonging for all time to come to the Commonwealth, was built, and that the increased development of the resources of Pennsylvania since 1860 has necessarily quadrupled the business of Governors and Legislatures, it cannot but be their candid conclusion that either the party in power in 1868 was economical, or the party in power in 1860 extravagant, especially, too, when the thinking men of the community take into consideration the fact that in 1868, or to-day, there was and is hardly a single item of expense to either the private individual or the State the cost of which is not more than double that of the same article in 1860.

In a measure rising to the dignity of what is proper in an address directed to the voters of Western Pennsylvania, and reluctantly leaving for the time being the housewifery of the Capitol and Gubernatorial mansion, the Chairman of the Democratic Committee alleges as extravagance on the part of the Republican party that a State debt of $20,000,000, bearing five per cent. interest only, was, under a Republican administration, redeemed and paid by a new issue, in 1866 7, of certificates of indebtedness to the amount of $23,000,000, bearing six per cent. interest.

All of which is true, but disingenuous, in this: that he is either ignorant of or wilfully failed to state the fact that the indebtedness of $20,000,000, most of it incurred long before the war, when there was no premium on gold, and all of it before the passage of the legal tender act, was overdue, and with its accrued interest amounted to about $23,000,000 at the time of its redemption by the Republican authorities of Pennsylvania, and the redemption effected by them converted the debt into one payable, principal and interest, in currency, at six per cent. interest per annum, instead of, *as the old debt* (under the decisions of the United States Supreme Court, then known to the State authorities,) *was a debt at five per cent. interest, payable, principal and interest, in gold.* At the time of this redemption gold was worth $1.40 in currency, and it would have required from the State of Pennsylvania $32,200,000 in legal tenders to have paid the indebtedness of $23,000,000, which the Republican administration of Governor Geary, by prudence and forethought, has funded into bonds or certificates of indebtedness of $23,000,000, bearing only the ordinary and legal rate of six per cent. interest, thereby saving to the State and the taxpayers the sum of at least $9,000,000. And yet for all this, the Democratic party, in its ignorance of either figures, values and facts, has chosen to assail as extravagant and corrupt the administration of a Governor whose three years' executive career can challenge, for economy, honesty and ability, the closest scrutiny of his political enemies as safely and as proudly as his four years' military experience has already, before the people of Pennsylvania, braved the scrutiny and overcome the calumnies of the same detractors whom he now has to meet—not as he has met more open enemies, in the field, but on safer ground of their own choosing, in print.

The exercise of the pardoning power on the part of Governor Geary seems strangely to affect the Democratic mind, and for the first time in the history of the State and its Governors, has alleged excess in that direction received Democratic disapproval. It has been unnecessarily bestowed, however, in the present case, as an examination of the records will show that Governor Geary has pardoned a less proportion of convicted criminals than any of his predecessors for years past; not in all amounting to fifteen per cent. of the applications made before him, which in themselves altogether do not equal one-tenth of the criminals convicted throughout the State. Less, then, than one per cent. of the convicts of this State, we confidently assert, during Governor Geary's administration received theso much talked of Executive clemency.

Unable, with all the disingenuous statements, and all the distorted figures of which we have referred, to make out anything which might even tend to deceive intelligent voters, and apparently not much relying upon them, the amiable and accomplished spokesman of the Democracy, taking up the old and well-worn weapons of his party, unweildy and unhandy though they be for him, has chosen to assail the private and personal character of Governor Geary in terms and language which, while indicating in the manner of their use the novice in that peculiar style of phraseology usually denominated billingsgate, yet strongly point to a high and successful graduation in that school of the fine arts, if the study and the practice are but continued.

The Republican party cannot afford either to reply to such a style of argument, or to retort on its opponents in a similar vein. It has nothing particular to say of Asa Packer, except that he has no record but that of his great accumulated wealth and an absence of a corresponding income tax. In the Legislature of the State, and a member of the Congress of the United States for two terms, a few scattering answers to roll-call, a few uncertain votes, are all that make up his public record and attest the fact that he has ever been in public life. Nor has it anything to say more or less particular of Cyrus L. Pershing, the associate on the Democratic ticket of Mr, Packer. With due observance of the proprieties of politics the Democratic State Convention was careful that the head of their ticket should not be in any wise obscured by the second name upon it, and accordingly nominated as their choice for Supreme Judge a candidate whose name as a lawyer was until then hardly known beyond the limits of his own county.

Both Mr. Packer and Mr. Pershing may be blameless and irreproachable in private life and character, and the fair presumption is that they are; but their adherents in this county have as yet not given the people, either through the press or through their speakers, one single argument in favor of transferring them from their privacy which they both presumably adorn, to a publicity which only men of known character, force and talent can or should fill.

Asking that no portion of its past record be forgotten by the people, but referring to it with pride, the Rephblican party, pointing to the State Administration of Gov. Geary, which in less than three years has reduced the State indebtness over $5,000,000, and saved the taxpayers over $4,200,000 of the taxation on real estate (doing away with taxation on every foot of ground in the State), presents as their candidate for Governor John W. Geary, and for Supreme Judge, Henry W. Williams, in full confidence and hope that the voters of the State will, by their triumphant election on Tuesday next, ratify and reaffirm the principles upon which the Grant administration was last fall elected, and approve the administration of a faithful and honest President, who in the first six months of his official life, has, by economy and integrity, reduced the national debt ove $56,000,000.

Governor Geary's history for twenty years past is well known to all. Occupying in that time many places, civil and military, of high responsibility and trust, his conduct has met, as it has merited, the full and unqualified approval of all the people.

It is hardly necessary to allude to Judge Williams, the associate of Governor Geary on the Republican ticket. His judicial career of sixteen years on the bench of the District Court of this county, and one year on the bench of the Supreme Court, constitute the record of his fitness for the position for which he has been nominated. A young man when he received at your hands, seventeen years ago, his first nomination for the District Codrt, the Democracy of the county thought enough of him to name as his competitor the Nestor of the bar, the late Judge Shaler, and when ten years later he came before the people for a re-election, the unanimous vote which they accorded him evidenced the high opinion which his opponents must have entertained of his abilities and integrity as a Judge.

The contest this year is one of special moment to the people of Pennsylvania. Apart from the usual importance of the Republicans retaining the Governorship, there is at this time a special importance in the position in this, that the Legislature of 1871 will have the duty of apportioning and dividing the State into Congressional and Legislative districts. This duty occurs once every ten years, and the Governor to be elected will have either to veto or approve such apportionment. A majority of the counties of this State are Democratic, and it is only by extreme exertion on the part of the Republican party that they can hope to maintain the supremacy in the State Legislature. Should we fail in this this fall and a Democratic Governor also be elected, an unfair apportionment might be made, which would give to the Democratic party two thirds of the Congressmen of the State for years to come, as well as such a majority of the Legislature as would insure to that party both United States Senators within four years.

And the Supreme Judge to be elected will determine whatever of political aspect the Supreme Bench shall have for fifteen years to come.

Allegheny county has made for herself a record in past contests as the Banner Republican county of the land. Since the formation of the grand Republican party she has cast no uncertain vote. The election of Tuesday next will go far to determine the question of whether this country shall again pass under Democratic rule. Let the voice of the Republicans of Allegheny county, so potential heretofore in determining the result in Pennsylvania, and so throughout the Union, be again raised in affirmation of those principles upon which our great party is founded, and which for thirteen years past by the banner county have been so triumphantly sustained.

By order of the Union Republican Executive Committee.

Col. SAMUEL YOUNG, late of the Clarion *Banner*, will soon issue the first number of his new paper. It will be printed in good style, and contain twenty-eight columns of matter. Its circulation will reach eighteen hundred copies weekly, being the largest edition of any newspaper in that region, and consequently affording rare advantages to business men to reach the people of the region in which it is printed. Its circulation through Clarion, Armstrong, Butler, Venango and adjoining counties goes into the hands of all the business men, and proves an advantageous medium to reach them and receive increased trade. Terms moderate. Address SAMUEL YOUNG, Editor, Cunningham, Pa.

FROM Washington we hear:

The administration is advised that no such note from Minister Sickles, as is circulating in foreign newspapers, and has been extensively copied here, was ever presented by Sickles to the Spanish Government; and, further, that up to this time there has not been the slightest disturbance of the friendly relations between the two nations, nor is there now any expectation that the Cuban question will involve Spain and the United States in trouble.

There is to be earnest prosecution of those concerned in the Hornet expedition, and, in all cases, neutrality laws are to be rigidly enforced.

THOU BRINGEST ME LIFE—LUNG-WORT.

One of the truest and most suggestive ideas can be obtained from the caption at the head of this article; for of all diseases which impair human health and shorten human life, none are more prevalent than those which affect the lungs and pulmonary tissues. Whether we regard lung diseases in the light of a merely slight cough, which is but the fore-runner of a more serious malady, or as a deep lesion corroding and dissolving the pulmonary structure, it is always pregnant with evil and foreboding of disaster. In no class of maladies should the physician or the friends and family of the patient be more seriously forewarned than in those of the lungs, for it is in them that early and efficient treatment is most desirable, and it is then that danger can be warded off and a cure effected. In DR. KEYSER'S LUNG CURE you have a medicine of the greatest value in all these conditions. An alterative, a tonic, a nutrient and resolvent, succoring nature and sustaining the recuperative powers of the system, Its beautiful workings, in harmony with the regular functions, can be readily observed by the use of one or two bottles: it will soon break up the chain of morbid sympathies that disturb the harmonious workings of the animal economy. The harrassing cough, the painful respiration, the sputum streaked with blood, will soon give place to the normal and proper workings of health and vigor.

An aggregated experience of over thirty years has enabled Dr. Keyser, in the compounding of his LUNG CURE, to give new hope to the consumptive invalid and at the same time speedy relief in those now prevalent, catarrhal and throat affections, so distressing in their effects and so almost certainly fatal in their tendencies, unless cured by some appropriate remedy. DR. KEYSER'S LUNG CURE is so thorough and efficient, that any one who has ever used it, will never be without it in the house. It will often cure when everything else fails, and in simple cases will cure oftentimes in a few days.

The attention of patients, as well as medical men, is respectfully invited to this new and valuable addition to the pharmacy of the country.

DR. KEYSER may be consulted every day until 1 o'clock P. M. at his Great Medicine Store, 167 Liberty street, and from 4 to 6 and 7 to 9 at night.

THE FALL AND ITS DANGERS.

Animal as well as vegetable life is powerfully affected by the great atmospheric change that takes place in the Fall. But for the flowers, the foliage and herbs of the field there is no help. Their time has come and die they must. It is otherwise with man. For him the means of reinvigoration have been provided by skill and science. To recruit his exhausted energies and fortify himself against the disorders generated by the sudden depression of temperature and the unwholesome exhalations of Autumn, let him tone his nervous system, invigorate his digestion and give edge to his appetite with HOSTETTER'S STOMACH BITTERS. He may then face the morbid influences of the season fearlessly. The chilling night dews and heavy morning mists will have no power so make him shiver and burn, to affect his liver, to disorder his stomach or his bowels, to rack his joints with rheumatism, or to render any latent element of disease in his system active and dangerous. To the sufferer from general debility, whether constitutional or arising from other causes,—this potent vegetable specific is earnestly recommended. And let it be remembered that physical *weakness opens the way to all maladies.* Vigor is the chief defence of the human structure against all causes of disease, and HOSTETTER'S BITTERS may be truly pronounced the safest and surest of all invigorants. It is the most genial of all vegetable tonics, and is admirably adapted to the wants and weaknesses of the more delicate sex, as well as to the ailments of men.

SIX NIGHTS ONLY AND A MATINEE.

OPENING NIGHT, MONDAY, OCT. 18.

The management in announcing this memorable musical season. Mdme. PAREPA ROSA will inaugurate a new epoch in the history of the American stage Her great success in Italian Opera in Europe and in this country, has given her that substantial fame in her musical career (which has consisted of an uninterrupted series of ovations) until it has become unrivaled in popularity. In London her achievements in English Opera were equal to those which distinguished her on the Italian stage, and her numerous musical triumphs in California and in the States during several seasons, and recently her wonderful display of power before 50 000 spectators in the great Coliseum of the National Peace Jubilee, in Boston, have united the entire American press in pronouncing Mdme. PAREPA ROSA the great lyric artist of the age. Her devotions to the highest order of compositions, and her grateful regard for the American public will stimulate her to every possible exertion to establish English Opera a permanent institution in this country.

SOLDIERS' MONUMENT.

TO THE

CITIZENS OF ALLEGHENY CO.:

At a meeting of the Executive Committee of the Allegheny County Monumental Association, held on Tuesday, September 28th, 1869, the following Preamble and Resolutions were unanimous adopted:

WHEREAS, There appears to be a great diversity of opinion existing as to whether the SOLDIERS' MONUMENT should be located in the City of Pittsburgh or in Allegheny City; therefore:

Resolved, That the Building Committee appointed by this Association be, and they are hereby instructed to prepare tickets, and submit the question to a vote of the people of this County, at the ensuing election, on the Second Tuesday of October, the tickets to be—"For the City of Pittsburgh," and "For Allegheny City," a majority of the votes polled to decide the matter.

Resolved, That after the people shall have decided as to whether the Monument shall be located in Pittsburgh or Allegheny City, this Committee shall, as soon thereafter as practicable, designate the spot in the city chosen, whereon the Monument shall be erected.

In carrying out the instructions contained in the above resolutions, we deem it proper to say, that several sites for the Monument have been generously tendered the Association free of charge, by citizens both of Pittsburgh and Allegheny, and there being a great diversity of opinion as to which of the two cities presents the greatest claims and advantages, it has been thought but right, that the question involved should be submitted to the citizens of the County, who are deeply interested in the matter, for their decision, with the hope that it may prove satisfactory.

Tickets are herewith furnished the Election Boards of the various Election Districts of the County, with the request that they make such arrangements as will secure a free and full expression of the opinion of the citizens of their respecitve districts, and that the vote be taken and certified in the usual form, and returned to the PRESIDENT OF THE BUILDING COMMITTEE at Pittsburgh.

NEW YORK, October 9, 1869.

Arrangements are stated to have been made which will result in the formal removal of the receivership over the Gold Exchange Bank on Tuesday next. The affairs of the Bank will then pass temporarily into the hands of Trustees, under direction of C. N. Jordan, Cashier of the Third National Bank. Their chief business will be to settle the business of Friday, the 24th ult., which, when completed, the Bank will resume business as usual. One party has consented to the removal of his injunction on the Board.

PITTSBURGH MARKETS.

OFFICE OF PITTSBURGH GAZETTE, }
SATURDAY, October 9, 1869. }

The markets, in a general way, present but little that is new or important. Business, generally, is dull, and there will be no permanent or substantial improvement, so long as our railroads continue to discriminate against us; we are in hopes, however, that the efforts recently made by bringing the matter to the notice of those who are supposed to have power to remedy it, will be crowned with success. What Pittsburgh wants is an outlet, and to this, she is certainly entitled, and what is desired is to have the rates of freight from here east reduced sufficiently to enable her to compete with other points in the west; in the present condition of affairs she cannot ship anything scarcely, while, if freights were reduced, her shipments east would be large, and business generally would be greatly improved.

ASHES—Steady but unchanged—4@4¼ for Soda, and 9 for Pearls.

APPLES—Steady with regular sales, at $1,50@3,00 per bbl, for common to choice.

BUTTER—Prime to choice Roll is in steady demand, with sales at 33@35.

CHESTNUTS—Have still further declined, and we now quote at $6,00 per bushel.

CRANBERRIES—Sales of prime eastern cultivated at $10,00@12,00 per bbl.

CHEESE—Is steady with regular jobbing sales at 15@18 cts—the outside figure for prime New York Goshen.

CARBON OIL—Standard brands 28½@29 for round lots, and 30@31 in a retail way.

DRIED FRUIT—Apples are quoted at 9@10 cts. per pound, and Peaches at 10 cts. for bright quarters, and 14c for bright halves.

EGGS—Steady at 23 cents.

FEATHERS—Dull; quoted at 80@85 cents to the trade, and the usual advance for small lots in store.

FLOUR—Is quiet and unchanged, though, if anything, the tendency is downward. We continue to quote good to choice Western Winter Wheat brands at $6,50@7,00 per bbl.

GRAIN—Wheat will not bring over $1,25 here, that is for red; white, 5 to 7 cents more. Oats dull and offering pretty freely, with sales on track at 48@49, and in store at 51@52. There is considerable rye comming in, mainly from Chicago, and it is dull with but few, if any buyers above $1,05. Corn is firm and scarce but unchanged—$1 on wharf and track, and $1,05@1,07 in store. We can report sales of good to choice Pennsylvania and Ohio spring and fall barley, at $1,25@1,30, and it is said that Canada barley can be delivered here at $1,35.

HAY—Sales from country wagons at $15@23—mostly at $15@20.

HUSKS—Sales at 2¾@3 cts per pound.

LIME—Sales of Cleveland white lime at $1,75 per bbl.

LARD OIL—Extra No. 1, at $1,43@1,45, and No. 2, at $1,05@1,08.

ONIONS—Sales at $2,50@3,00 per bbl, the outside figure for choice.

PROVISIONS—Firm with a good jobbing demand, but unchanged. Shoulders, 16¾; Clear Ribbed Sides, 20½; Clear do, 21; Ribbed, 20; plain Sugar Cured Hams, 23. Lard, in tierces, 20; in half bbls, 20½ in kegs 21. Mess Pork, $33,50.

POULTRY—Sales of chickens at 55 to 65 cents per pair, according to size.

POTATOES—Sales of Peach Blows at 50 cents per bushel. Jersey sweets are still quoted at $5 per bbl.

SEEDS—Timothy seed is a little weak, wih considerble offering, and cannot be quoted above $4@4,25. Sales of flaxseed at $2,25@2,30, and receipts very light.

SALT—Is firmer, with sales of car load lots at $1,85 per bbl.

STRAW—Sold in Allegheny market at $12 per ton.

REVIEW FOR THE WEEK.

The market has been rather quiet all week, the aggregate business having been comparatively light, but the feeling to day was considerably stronger, under the influence of a still further advance at Antwerp. The advices from the east have been very discouraging for a week or two past, owing mainly to the stringency in money matters, and some of the most prominent operators there have been crippled, while others (but very few however) have gone by the board altogether. On the other hand, however, there has been an improved business with the South and West, and the shipments to some of Southern and Western cities, during the past ten days, have been unusually large, reaching in the aggregate some 10,000 or 12,000 bbls. As noted in our last report, the unsettled and unsatisfactory state of the trade in the east has caused many of our refiners to turn their attention westward and southward, and it looks now as if the shipments to the west and south would be much larger this year than for several years past. And as we have previously noticed, if our western railroad officials could only be prevailed upon to make a reduction in the freight on oil, and thus enable the trade here to fairly compete with Cleveland, our shipments would be largely increased.

Receipts Crude this week, 20,746 bbls; last week, 17,309; from January 1st to date, 669,486: same time last year, 878,989; Exports refined (east) this week, 7,379; last week, 16,093; from January 1st to date 416,923, same time last year, 535,683; Sales this week 38,000 bbls; last week, 45,500. As will be seen from the above, we are largely behind, compared with same time last year.

CRUDE.

The crude market to-day, appeared to be a shade stronger, though there wat but very little business effected, and prices, compared with yesterday, have undergone no quotable change. Spot or seller this month may be quoted at 14⅝, (40 to 46 gravity,) and 14¾, (40 to 45.) Sale 500 bbls (40 to 45) seller next week, at 14¾, and 2,000 seller until December 1st, at 14½; seller all 1869, nominal at 14@14¼; and buyer same time, 14¾@15.

REFINED.

Market stronger and prices a shade higher. Sales 500 bbls spot at 32¼, 1,000 do at 32¼; 500 first half October, at 32; last half October may be quoted at 32¼@32½—we have no quotations for the last three months.

STATE ITEMS.

THE Johnstown Zouaves have reorganized.

A GANG of horse-thieves from Eastern Ohio have been operating in Lawrence county.

JOURNEYMEN tailors of New Castle, Lawrence Co., decided to advance their scale of prices twenty-five per cent. Their demand was acceded to.

ON the 4th, Mr. Knapp, foreman of the Atlantic and Great Western Railroad shops at Leavittsburg, was killed by being run over by a switch engine, while standing on the track.

A THREE-YEAR old son of Mr. Gunderman, of Greenville, Mercer county, was killed at the Pacific Mills in that place, on Tuesday of last week. He was caught in the machinery, his arms crushed, neck broken and right side badly bruised.

MR. S. O. CARLISLE, engineer on the Iron Mountain Railroad in Missouri, was recently injured in a collision, and it became necessary to amputate one of his legs. His wife, who resides at Meadville, had received a dispatch that he was in a fair way of recovery, but on the sixth learned that he was dead and that his remains would be forwarded. Mr. C. was formerly employed on the Atlantic and Great Western road.

AT a railroad meeting held in Bedford, on the 6th, Hon. S. L Russell presiding, addresses were made by a number of gentlemen on the subject of a railroad from that place to connect with some route already surveyed. Col. James Worrall, of Harrisburg, declared the *route* proposed by him, to lead from Harrisburg to connect with the Connellsville Railroad, was a better route than that of the Pennsylvania Railroad; that while Bedford enjoys all the advantages of position and natural wealth, yet she is *in statu quo*, and might as well be at the North Pole, for her energies really seem frozen up. He offered himself to incur the preliminary expense of surveying, engineering and arranging the first details incident to building a road. Hon. D. W. Rowe thought that with a through railroad, Bedford Springs would rival the waters of Vichy and Baden Baden. On motion, a committee, with two books, was appointed by the President, to receive subscriptions—one from Bedford to Mt. Dallas and one from Bedford to Bridgeport.

FOREIGN NEWS AND RUMORS.

THE son of the famous Russian engineer, General Todleben, is said to be a greater military genius than his illustrious father.

THE new executioner of Paris is opposed to the further use of the guillotine for dispatching criminals. He says the best way of executing them is to strangle them as the old Venetians and Spaniards did, by seating them on a chair and putting around their necks a rope, turned by a fellow in the passage outside until they are dead.

WHEN Napoleon the Third drove out for the first time, after his recent dangerous illness, he fainted after riding for a quarter of an hour. A very strong dose of cognac, administered to him by Dr. Corvisart, who was with him in the same carriage, restored him to a little vivacity, but, during most of the ride, he was unable to open his eyes. The Empress, who was at first in the carriage following that of the Emperor, turned deadly pale, upon hearing what had happened to her consort, and she insisted upon entering his carriage. Very few cheers greeted the Imperial couple, during the ride through the city.

THE harvest in England, according to the statement of the Board of Trade, will be a good one, but the accuracy of this prediction is denied by the *Saturday Review*. According to this latter authority, the grain crop in the northern counties and Scotland were seriously injured by the heavy rains which fell in the middle of September. Though the crops in the south of England were secured before that time, yet, it is asserted that the ricks have suffered by being stripped by the wind and by being saturated with the rain water. The root crop, however, has been improved by the fall of rain, which, nevertheless, came too late to benefit the autumn growth of the grass. The barley crop is good and sufficiently large to cause a reduction in the prices of last year. As the imports of grain into England continue to be large, and with the prospects of a good hay and root crop, there is no anxiety felt in regard to a sufficiency of food for the cattle.

◆

IT is claimed that Fall River is the largest cotton manufacturing town in the United States, its spindles being more than those of Lowell or Lawrence. There are twenty-two mills within its limits, and the place can boast of twelve thousand eight hundred looms and nearly six thousand spindles. These give employment to 7,500 hands, whose wages approximate a quarter of a million monthly, and whose labor produces one hundred and twenty million yards of goods a year. It is said that the mills, although thrifty, and undoubtedly profitable, have been the subject of but little improvement for a number of years past, except in the character of the mechanism used. Some will be surprised to learn that this is for the most part imported. The managers of one establishment have recently ordered ten thousand spindles from English makers, and in spite of duty and cost of transportation, claim to find a profit in so doing.

◆

MR. HARRISON AINSWORTH, the novelist, founded one of his stories on a curious old custom which has recently been revived in Dunmoor, a little town in Essex, England. It was once the practice in that little village to present a flitch of bacon to any married couple who could prove that not a single cross word had passed between them for a twelvemonth and a day, but of late years the ancient ceremonial had been neglected. Last month one of the former managers of the Dury Lane theatre revived the custom and awarded two flitches, the presentation being accompanied by a *fete champetre*, a clown's tournament, a Punch and Judy show, a Maypole dance, and a procession through the town. The Pall Mall *Gazette* briefly noticed the occurrence, but deprecated the revival of the practice, deeming its accompaniments anything but respectable, and remarking that many of the questions put to the claimants of the flitch were beyond even the bounds of indelicacy.

The Suez Canal—Can Large Ships Navigate It at First?

Professor Alexander Ryer has written to the *Grazer Tagespost* of Germany an interesting letter on the Suez Canal, from which we take the following remarks. He says: Two circumstances render it doubtful whether the whole length of the canal will be navigable for large ships at the beginning of next November. They are, first, the fact that the salt lakes are only filling very slowly, as the current cannot be increased from the north for fear of injuring the sides of the canal and interfering with the machines at work there; and, next, the rocky formation met with south of the lakes, which retards the progress of the works. These difficulties may perhaps be overcome, but there are others of a more serious nature which, while they will not delay the opening, may seriously affect the success of the undertaking. There are particularly the following points: 1. The harbor of Port Said is in danger of being filled up by the fine deposit brought down by the Nile; a bank has already formed on the outside of the west mole, and in the course of a short time it will extend beyond it and be carried into the first basin. Besides this, the deposit has already entered the harbor through the open spaces between the blocks of stone to such an extent as to necessitate a deepening of the first basin. The deposit was then removed from the eastern side of the harbor, but heaped on the interior of the west mole, in the hope that, being hardened by pressure between the blocks, it might itself help to secure the harbor from similar dangers in future. Sufficient time has not yet passed to test the success of the experiment. 2. The fresh water basin of Port Said is too small, so if that the water pipes are so seriously injured as to require lengthened repairs, the whole population will be reduced to great straits. 3. In the Menzeleh Lake it has been remarked that the wooden walls have in several places been severely strained and displaced. Such parts will demand frequent repairs. 4. The depth of the canal, eight metres, will not be sufficient for vessels with seven metres draught for any length of time, nor is it broad enough (twenty-two metres) to allow large ships to pass each other easily. Its depth, if it be successful, will have to be increased to nine or, better still, ten metres. 5. Even this would not render it possible for large steamers to use their wheels or screws in passing, for the machines used for deepening the canal cause waves one metre in height. Such vessels will, therefore, have to be drawn by chains and machines standing on the banks. 6. For long distances the bed is simply dug in the sand. These parts must soon be walled up or they may be destroyed, and the whole labor lost. Many, indeed, are in favor of coating both sides with stones for the whole length. 7. The canal is in danger of being choked up by sand storms and washing from the sides. The writer believes that this will amount to 1,000,000 cubic metres per annum, which is twice the quantity calculated upon. Six large machines, each of eighty horse power, will have to be constantly employed in clearing this sand away.

Curious Announcements.

The following advertisement from a Berlin paper is a curiosity:

"The Three Wonders of the canine world, or the educated dog family! Schnapsl, the learned dog, who can calculate, read and write, with great dexterity, and besides this is celebrated as an excellent dancer, springer and equilibrist, as well as his lady, Lydia, the musician of the canine kingdom, who skilfully executes whole musical pieces upon the piano, and their mutual friend, Mylord, who distinguishes himself as a wonderful four-footed Turner, present themselves daily from eleven till eight in the hotel, or when requested will visit the dwellings of the honored public."

The advertisement is embellished with a wood cut representing "Lydia" seated at the piano, an instrument of about six or seven keys, and reading off the music notes as she plays.

A singular specimen of a death notice is published in a German paper:

"To-day red, to-morrow dead. So it was with my wife, who only seven days ago 'was springing over bench and table,' and was buried yesterday. During her life she was a live woman, who did not easily mistake an X for a W. For that reason everybody can tell the extent of my sorrow; so young and so merry, and now buried. What is human life? I have said to myself repeatedly within the past few days, and also yesterday in the churchyard when I paid the sexton, who will also keep the grave mound in order. So cheerful a wife I shall certainly never find again, and therefore my sorrow is a righteous one. I wish that heaven preserve every man from a similar sad fate, and thank for the flowers, as well as Herr Cantor for the grave hymn, which went through and through me, but was very well sung.

"ACKERMAN, Master-Locksmith."

Care of Boots and Shoes.

Boots and shoes, if taken care of properly, will usually last two or three times longer than they usually do, and, at the same time, fit the feet far more satisfactorily, and keep them dry and more comfortable in wet and cold weather. The upper leather should be kept soft and pliable, while the soles need to be hard, tough and impervious to water. The first thing to be done with any pair of new shoes for farm use, is to set each one on a platter or an old dinner plate, and pour on boiled linseed oil' sufficient to fill the vessel to the upper edge of the soles. Allow the leather to absorb as much oil as is will for eight hours. Linseed oil should not be applied to the upper leather, as it will soon become dry, rendering the leather hard and tough. But if the soles be saturated with this oil, it will exclude the dampness, and enlarge the pegs, so that the sole will never get loose from the upper leather. If the shoes be sewed, the linseed oil will preserve the thread from rotting. Now, wet the upper leather thoroughly when the boots or shoes are to be put on the feet, so that those parts which are tight may render a trifle, and thus adapt the form of the shoe to the foot far more satisfactorily than when the upper leather is not wet. Keep them on the feet until nearly dry. Then give the upper leather a thorough greasing with equal parts of lard and tallow, or with tallow and neat's-foot oil. If shoes be treated in this manner, and a row of round-headed shoe nails be driven around the edge of the soles they will wear like copper, and always set easy to the feet. Boots and shoes should be treated as suggested, and worn a little several months before they are put to daily service. This is the true way to save your shoe money.—*Hearth and Home.*

TO THE REPUBLICAN VOTERS OF ALLEGHENY COUNTY.

The Republican County Executive Committee respectfully submit the following suggestions relative to the election on Tuesday next, and earnestly invite the attention of our friends throughout the county to them:

1. See that the polls are opened in every district at the earliest hour named by law, and that they are kept open until the latest hour. The polls may be opened between six and seven o'clock in the morning and must be closed at seven in the evening. If full Boards are not present at six o'clock A. M., see that the vacancies are filled and the polls opened at seven o'clock A. M.

2. Poll the Republican vote as early as possible in every district, keeping lists as nearly correct as practicable while the voting is going on of all who have voted.

3. Be prepared with full and perfect lists of every Republican voter in the different districts, and not later than three P. M. commence sending out and bringing in and seeing that all Republicans vote whom your lists show have not been at the polls.

4. Have competent and proper men in every district as challengers, and especially have numerous and efficient block committees, (and so arranged that they may be relieved from time to time,) who will be responsible for every republican vote in their respective blocks and districts.

5. Have our friends pay particular attention to persons offering to vote on naturalization papers, and especially to every person attempting to vote on a Luzerne county naturalization certificate, or on a naturalization certificate issued by the Supreme Court of Pennsylvania, and bearing date since the first of September, 1868.

6. Whenever an attempt is made to vote illegally, or a vote is cast by any person not having proper papers, and not a legal voter of the election district, have the offender promptly arrested.

7. The following abstract as to qualifications of voters, proof of age, &c., is ESPECIALLY commended to the attention of the voters:

QUALIFICATIONS OF A VOTER.

1. He must be a native or naturalized Citizen of the United States, of the age of TWENTY-ONE YEARS or more.

2. He must have resided in the State at least ONE YEAR, and in his election district at least TEN DAYS immediately preceding such election, and have paid, within two years, a STATE or COUNTY TAX, which had been assessed within two years and at least ten days before the election.

EXCEPTION.—Persons VOTING ON AGE, (being under twenty-two years of age,) may vote without being assessed and without having paid such tax. This exception does *not* extend to naturalized citizens.

3. All persons citizens of the United States formerly qualified voters of this State, but who had removed therefrom and paid taxes, as herein before indicated, are entitled to vote after six months' residence in the State.

All of the above classes should be registered within ten days prior to the Election; but if through neglect or otherwise their names do not appear on the Registry list, they will be allowed to vote only on going to the polls and making affidavit of the fact that they fall within one of these classes, and filing at the same time the affidavit of one qualified elector of the District in proof of their residence, within that Election District for ten days preceding the Election—excepting persons who render proper, proof of their right to vote on age who are not required to pay a tax.

PROOF OF AGE.

Age may be proved by the persons offering to vote, or by any other legal evidence.

PROOF OF RESIDENCE.

Residence within the State may be proved in the same manner as age, *but the fact of residence within the proper election district*, MUST BE PROVED by his own oath and the testimony of at least one qualified elector and compteut witness. The residence must be *bona fide* and not simply for the purpose of voting. IN CASE OF REMOVAL within ten days before the election he may vote in the district from which he removed.

PROOF OF NATURALIZATION.

The only evidence of naturalization is the certificate under the seal of a competent court, produced to the election officers. ITS LOSS AND CONTENTS CANNOT BE PROVEN IN ANY CASE.

The naturalization certificate must be produced to the election officers by the naturalized citizen before voting, and upon the vote of such person being received, it is the duty of the election officers to write or stamp on such naturalization certificate the word "voted," with the month and year.

EXCEPTION—Where a naturalized citizen shall have been a citizen and resident of the district where he offers to vote, for at least ten years next preceding the election, his own oath (without production of any certificate) shall be *prima facia* evidence of naturalization.

IDENTITY.

Although the certificate is evidence of naturalization, yet the person offering to vote, MUST, IF REQUIRED, PROVE BY LEGAL EVIDENCE (not his own oath) that he is the identical person named in such certificate.

PAYMENT OF TAXES

May be proved by the production of the receipt for the payment of tax, and oath of the person himself or other competent witness. If he fail to produce such receipt he must make oath to the payment of a tax. If required, the genuineness of the receipt must be proved.

OPPOSING EVIDENCE.

Evidence may be produced against any person claiming the right to vote, or to contradict the evidence in his behalf.

GENERAL MATTERS.

Any election officer or qualified elector has the right to challenge any person offering to vote; and, when objection is thus made, it is the duty of the inspectors to require such person to prove his right to vote. The testimony must be satisfactory to the inspectors.

Persons whose names are registered may be challenged, and when challenged they are required to produce the same proof as to their right to vote as persons who are not registered.

Where there are more names on a ticket than there ought to be, the ticket should be rejected. The Polls should be closed at the proper hour regardless of the fact whether or not all persons present have voted.

Temporary absence on public business or in the military service, does not disqualify a voter. Native citizenship must be proved when such proof is required by either of the inspectors or by any qualified voter. The minor children of persons who were aliens, though born out of the United States, if dwelling in the United States at the time of the naturalization of their parents, become citizens by such naturalization of their parents. Proof of the fact, if required, must be made by the production of the certificate or duplicate thereof, and evidence of identity, as in other cases.

JUDGES AND INSPECTORS.

The Inspectors and Judges are required to meet before seven o'clock, A. M., and each Inspector shall appoint one Clerk. In case the person who received the second highest number of votes for Inspector shall not attend, the person who received the second highest number of votes for Judge shall act in his place. In case the person who received the highest number of votes for Inspector shall not attend, the person elected Judge shall appoint an Inspector in his place. In case the Judge elect shall not attend, the Inspector who received the highest number of votes shall appoint a Judge in his place.

If any vacancy shall continue in the election Board for the space of three quarters of an hour after six o'clock, the voters present shall elect one of their number to fill such vacancy before seven o'clock.

By order of

J. ERASTUS MCKELVY,
Chairman on Naturalization.

SPECIAL NOTICES.

☞ **SCHENCK'S PULMONIC SYRUP, SEAWEED TONIC AND MANDRAKE PILLS** will cure Consumption, Liver Complaint and Dyspepsia, if taken according to directions. They are all three to be taken at the same time. They cleanse the stomach, relax the liver and put it to work; then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens into the lungs, and the patient outgrows the disease and gets well. This is the only way to cure consumption.

To these three medicines Dr. J. H. Schenck, of Philadelphia, owes his unrivaled success in the treatment of pulmonary Consumption. The Pulmonic Syrup ripens the morbid matter in the lungs, nature throws it off by an easy expectoration, for when the phlegm or matter is ripe a slight cough will throw it off, and the patient has rest and the lungs begin to heal.

To do this, the Seaweed Tonic and Mandrake Pills must be freely used to cleanse the stomach and liver, so that the Pulmonic Syrup and the food will make good blood.

Schenck's Mandrake Pills act upon the liver, removing all obstructions, relax the ducts of the gall bladder, the bile starts freely, and the liver is soon relieved; the stools will show what the Pills can do; nothing has ever been invented except calomel (a deadly poison which is very dangerous to use unless with great care,) that will unlock the gall bladder and start the secretions of the liver like Schenck's Mandrake Pills.

Liver Complaint is one of the most prominent causes of Consumption.

Schenck's Seaweed Tonic is a gentle stimulant and alterative, and the alkali in the Seaweed, which this preparation is made of, assists the stomach to throw out the gastric juice to dissolve the food with the Pulmonic Syrup, and it is made into good blood without fermentation or souring in the stomach.

The great reason why physicians do not cure Consumption is, they try to do too much; they give medicine to stop the cough, to stop chills, to stop night sweats, hectic fever, and by so doing they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies.

Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills or fever. Remove the cause, and they will all stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Catarrh, Canker, Ulcerated Throat, unless the liver and stomach are made healthy.

If a person has consumption, of course the lungs in some way are diseased, either tubercles, abcesses, bronchial irritation, pleura adhesion, or the lungs are a mass of inflammation and fast decaying. In such cases what must be done? It is not only the lungs that are wasting, but it is the whole body. The stomach and liver have lost their power to make blood out of food. Now the only chance is to take Dr. Schenck's three medicines, which will bring up a tone to the stomach, the patient will begin to want food, it will digest easily and make good blood; then the patient begins to gain in flesh, and as soon as the body begins to grow, the lungs commence to heal up, and the patient gets fleshy and well. This is the only way to cure Consumption.

When there is no lung disease and only Liver Complaint and Dyspepsia, Schenck's Seaweed Tonic and Mandrake Pills are sufficient, without the Pulmonic Syrup. Take the Mandrake Pills freely in all billious complaints, as they are perfectly harmless.

Dr. Schenck, who has enjoyed uninterrupted health for many years past, and now weighs 225 pounds, was wasted away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicians having pronounced his case hopeless and abandoned him to his fate. He was cured by the aforesaid medicines, and since his recovery many thousands similarly afflicted have used Dr. Schenck's preparation with the same remarkable success. Full directions accompany each, making it not absolutely necessary to personally see Dr. Schenck, unless patients wish their lungs examined, and for this purpose he is professionally at his Principal Office, Philadelphia, every Saturday, where all letters for advice must be addressed. He is also professionally at No. 32 Bond street, New York, every other Tuesday, and at No. 35 Hanover street, Boston, every other Wednesday. He gives advice free, but for a thorough examination with his Respirometer the price is $5. Office hours at each city from 9 A. M. to 3 P. M.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 a half dozen. Mandrake Pills 25 cents a box. For sale by all druggists. my19:151-d&F

PROCLAMATION.

City of Allegheny, ss:

I, SIMON DRUM, Mayor in and for the City of Allegheny, do issue this, my Proclamation, that on the SECOND TUESDAY OF OCTOBER, A. D. 1869, being the 12th day of the month, the freemen of said city, qualified to vote for members of the House of Representatives of this Commonwealth, will meet at their several places of holding the elections in their respective wards and elect by ballot the following members of Select and Common Councils, together with one person to serve as Mayor for two years, and one person to serve as Director of the Poor for three years.

The electors of the First Ward of the City of Allegheny, to meet at the Public School House in said Ward, and elect one member of Select Council and two members of Common Council.

The electors of the Second Ward of the City of Allegheny to meet at the Public School House in said Ward, and elect one member of Select Council and three members of Common Council.

The electors of the Third Ward, of the City of Allegheny, to meet at the Public School House in the first precinct and at the house of George Gerst in the second precinct, in said Ward, and elect one member of Select Council and four members of Common Council.

The electors of the Fourth Ward, City of Allegheny, to meet at the Public School House in the first precinct, and at the house of Mr. Gorson in the second precinct in said Ward, and elect one member of Select Council and four members of Common Council.

The electors of the Fifth ward, City of Allegheny, to meet at the Public School House in said Ward, and elect one member of Select Council and two members of Common Council.

The electors of the Sixth Ward, City of Allegheny, will meet in the Public School House in said Ward, and elect one member of Select Council and two members of Common Council.

The electors of the Seventh ward, City of Allegheny, will meet at the house of Lutz & Walz in said ward, and elect one member of Select Council and two members of Common Council.

The electors of the Eighth Ward, City of Allegheny, will meet at the Public School House in said Ward, and elect one member of Select Council and two members of Common Council.

In testimony I have hereunto set my hand and seal of the said City of Allegheny, this 28th day of September, A. D. 1869.

SIMON DRUM, Mayor.

CITY AND SUBURBAN.

THE GAZETTE *is furnished in the city for six days of the week for* 15 *cents per week; by mail,* $8 *per annum:* 3 *mos.,* $2.

Send in the Result!

Will our friends throughout the two cities oblige us by sending in the returns of the ward elections as soon as possible after being counted, as we propose publishing the result in full in Wednesday's GAZETTE? We would also respectfully request the borough and township officers to fill up the blanks furnished them at once and forward by mail or hand to our counting room, 86 Fifth avenue,

Our Readers in Allegheny, on the west side of Federal street, who do not get their paper before seven o'clock in the morning, will do us a favor by leaving word to that effect in our counting room. The tardiness on the part of the carrier is wholly inexcusable as we print and deliver the papers to him in ample time to enable all to be circulated before seven o'clock.

Police circles were devoid of interest Saturday.

Allegheny Councils will meet next Thursday night.

Not a single case was reported at the Allegheny Mayor's office yesterday.

Richings' Opera Troupe.—The Richings English Opera Troupe will commence an engagement of six nights at the Opera House on the 18th inst.

$1,000, or More, is ready at the GAZETTE counting room as a wager that John W. Geary will receive a majority of the votes cast in gubernatorial election to-morrow.

Some difficulty is experienced in keeping up the flow of the large fountains in the Allegheny Park. It is said the supply of water in the upper part of the Third ward is almost cut off when the fountain is playing.

Lecture Season.—The lecture season of the Young Men's Mercantile Library Association will commence on the 15th of next month. Mark Twain delivers the opening lecture. Season tickets, for sale by the Librarian at the Library Rooms, corner of Sixth and Penn street,

Assault.—Howell Williams alleged before Alderman M'Masters, Saturday, that Louis Jones, proprietor of a saloon in South Pittsburgh, had knocked him down and kicked him two or three times in the saloon on Friday night. Warrant issued for Jones' arrest.

Aquatic.—The three-mile race between Wm. Worthington, of the Duquesne, and John Hayes, of the Jones boat clubs, which came off on the Allegheny course Saturday afternoon, was won by the latter, who came in about one hundred yards ahead. Time—twenty-four minutes.

Mayor's Court.—There were thirty-three cases disposed of at the Mayor's morning court yesterday—nineteen of whom were charged with disorderly conduct, twelve with drunkenness, and two on a charge of vagrancy. Fifteen of the number paid fines and eighteen were committed.

Republican Rally.—A grand Republican rally was held in front of the Custom House Saturday evening. Eloquent and stirring addresses were made by Hon. H. Bucher Swope and Col. Wm. Bleakely. A brass band in attendance enlivened the exercises with patriotic airs.

Coal Office Robbed.—At an early hour Saturday morning the coal office of the Connellsville Coal Company, on Marion avenue, First ward, Allegheny, was entered, and the safe blown open, but nothing found in it. To make up for their trouble in a slight measure, the thieves carried off a clock and a guitar—all the portable plunder contained in the office.

The Verdict.—An inquest was held on the body of Peter Fish, found dead near O'Neils' coal works, an account of which we published a few days since. The jury found that the deceased came to his death from injuries received at the hands of William O,Rourke. O'Rourke is still in jail, He denies the charge and says he does not know how Fish was injured.

Disorderly.—Saturday night William Crumny was brought before Mayor Drum for disorderly conduct, on oath of John H. Gibson. The prosecutor alleges that he observed Crumny abusing a colored boy on Craig street, First ward, and remonstrated with him, when Crumny turned upon him and pushed him into the gutter, and endeavored to raise a disturbance. The accused, after a hearing, was fined ten dollars and costs.

Slight Fire.—About half-past four o'clock yesterday morning a fire occurred in Messrs. Youngson & Co's bakery and confectionery, at the corner of Diamond alley and Smithfield street. The fire originated in the bake-house in the basement and was extinguished before any serious damage was done. The fire department was called out and a considerable quantity of water was thrown into the building. The loss will not exceed two hundred dollars.

Progressing.—The foundation for the Good Will Engine House, Sixth ward, Allegheny, has been completed, and workmen will commence to-day on the brickwork. A strong force has been engaged and the building will be pushed forward rapidly. It is expected that the lower floor will be ready for occupancy before the close of the present season. The Good Will is one of the most efficient organizations in the service, and eminently deserving of better quarters than they are now compelled to occupy.

Lookout for Smooth-Bores.—We call attention to a card elsewhere, in reference to a "smooth-bore" ticket in the Seventh ward, Pittsburgh, the desire of which is to defeat Mr. John Wilson for Select Council and Mr. Charles Jeremy for Common Council, both regularly nominated Republican candidates. The timely exposure of the trick is fortunate, as the election of the gentlemen named, with the entire Republican ticket of that ward, will thereby be rendered all the more certain.

Robbery on the Wharf.—About eleven o'clock yesterday Dan Riley attempted, and it is alleged succeeded in the attempt, to rob Joseph Cooper, of Buffalo, New York. The parties had been drinking together during the day, and Riley induced Cooper to go down on the wharf near the Point, where he knocked him down and Cooper says took ten dollars out of his pocket. They were both arrested and taken to the watch house where Cooper was detained for drunkeness and Riley on a charge of robbery.

Amusements.

OPERA HOUSE.—Mr. and Mrs. Albaugh closed a highly successful engagement at the Opera House on Saturday evening. They both demonstrated pretty clearly how some "stars" can draw the pay, while superior actors in the stock company contribute all that make the plays interesting. Mr. Albaugh, in Richard the IIId, was as pretentious a piece of unnatural and impotent acting as we have ever witnessed, and had not the Richmond sustained himself much better we should sympathize with Shakespeare in the cruel manner he was murdered. Let Mr. and Mrs. Albaugh alone next season, good Mr. Canning, and rest satisfied with the thought that you have done a good thing by the public in keeping the stage clear of stars of a magnitude which would fail to do credit to the milky way of the dramatic profession. This evening Mr. Joseph Proctor commences an engagement of six nights at the Opera House, when "Nick of the Woods" will be presented. Mr. Proctor is so well known and highly appreciated in this city that it is useless for us to say a word in his favor.

PITTSBURGH THEATRE.—This cosy and comfortable place of amusement continues to furnish its patrons with excellent entertainments, and the public fully appreciating that fact, give it a liberal patronage. In addition to the long list of brilliant stars of last week, several new attractions are announced for the present week. Manager Williams knows how to please the public.

ACADEMY OF MUSIC.—Allen, Pettengill & Co.'s Sensation Minstrels will commence an engagement of four nights only, at the Academy of Music, Thursday, the 13th inst. The troupe is said to be one of the best now traveling, and they will doubtless draw full houses.

PAREPA-ROSA.—Monday evening, the 18th inst., the Parepa-Rosa Opera Troupe will commence a brilliant season of English opera, of six nights only, at the Academy of Music. The sale of season tickets will take place on Wednesday at Kleber & Bro.'s Music Store, 122 Wood street, from 9 A. M. to 12 M. After that hour commences the sale for any one or more nights.

Habeas Corpus.

An interesting case was brought up before the Court of Common Pleas, Saturday, Judge Sterrett presiding on a *habeas corpus*. The writ was issued upon the application of John Maguire, of Blair county, who asks to obtain possession of a little girl, Jane Stanley by name, aged about seven years. The child was the daughter of Michael Stanley, deceased, and is now in the possession of Mrs. M. Kennedy, a resident of Allegheny, but formerly of Cambria county. The father was killed while in the army, the mother has married a second time. The mother desired to have the child, which has been in the possession of Mrs. Kennedy for six years, placed under the charge of her brother, and stated that the child was taken from her by her husband when it was not more than four or five months old. She further stated that she had never seen it but once since that time. For the respondent, testimony was adduced to show that the mother was dissipated, and the child was deserted by her when a mere babe. It was further shown that it had been well cared for, and that Mrs. K. had been appointed guardian by the Cambria County Court. Mr. Stanley also produced a certificate of guardianship issued by the Blair County Court.

After hearing the testimony, upon argument of counsel the case was put on the argument list, and will be argued Saturday.

The School of Design has resumed work, and we wish to call attention to the opportunities of instruction which this institution offers. Catalogues with this information may be had at the rooms, corner of Wood street and Sixth avenue.

The Principal, Mr. Hugh Newell, and his assistant, Miss Henderson, are known to be thoroughly competent and skillful teachers. The school should be highly prosperous. 2

Burns' Restaurant, corner of Sixth avenue and Smithfield street, daily receives fresh shell oysters from the best fisheries of Baltimore, Philadelphia and New York, and nowhere else in the city can they be served up in better, cleaner or more tempting styles, and the prices are the very cheapest in the city. For a good meal or lunch call at this orderly and well kept restaurant at any hour, and our word for it you will be as well satisfied as you ever were in your life.

Be Beautiful.

If you desire beauty you should use Hagan's Magnolia Balm.

It gives a soft, refined, satin-like texture to the Complexion, removes Roughness, Redness, Blotches, Sunburn, Tan, &c., and adds a tinge of Pearly Bloom to the plainest features. It brings the Bloom of Youth to the fading cheek and changes the rustic Country Girl into a Fashionable City Belle.

In the use of the Magnolia Balm lies the true secret of Beauty. No Lady need complain of her Complexion who will invest 75 cents in this delightful article.
